

"Process fugitive emissions" means any air contaminant entering into open air from a process by means other than a flue.

"Proposed permit" means the version of an operating permit that the Bureau proposes to issue and forwards to the Administrator for review in compliance with 40 CFR §70.8.

"PSD" {see Prevention of Significant Deterioration requirements}.

"Publication rotogravure printing" means rotogravure printing upon paper which is subsequently formed into books, magazines, catalogues, brochures, directories, newspaper supplements, and other types of printed material.

"Pyrolysis" means the endothermic gasification of hospital waste and/or medical/infectious waste using external energy. *{added by November 19, 1998 amendment, effective September 1, 1999}*

"Pushing" means the operation by which coke is removed from a coke oven and transported to a quench station, beginning, for the coke oven batteries designated 13, 14, 15, 20, and B at the USX Corporation Clairton Works, at the time the coke mass starts to move and ending at the time the coke transfer car enters the coke quenching system, and for all other coke oven batteries, beginning when the coke side door is first removed from a coke oven and continuing until the quenching operation is commenced. *{effective February 1, 1994}*

"RACT" {see Reasonably Available Control Technology}.

"Radome" means the nonmetallic protective housing for aerospace electromagnetic transmitters and receivers--for example, radar, electronic countermeasures. *{effective July 10, 2003}*

"Rain erosion resistant coating" means the coating or coating system used to protect the leading edges of parts such as flaps, stabilizers, radomes, and engine inlet nacelles against erosion caused by rain impact during flight. *{effective July 10, 2003}*

"Rated capacity" means the operating limit of a source as stated by the manufacturer or as determined by good engineering judgement, or such other operating limit as is specified in an applicable permit condition.

"Reasonable further progress" means either:

- a. Progress toward the NAAQS's according to the schedule set forth in the applicable portion of the SIP; or
- b. Such annual incremental reductions in emissions of the relevant air pollutant as are required for the purpose of ensuring attainment of the applicable NAAQS by the applicable date.

"Reasonably Available Control Technology" means any air pollution control equipment, process modifications, operating and maintenance standards, or other apparatus or techniques which may reduce emissions and which the Department determines is available for use by the source affected in consideration of the necessity for obtaining the emission reductions, the social and economic impact of such reductions, and the availability of alternative means of providing for the attainment and maintenance of the NAAQS's.

"Refiner" means a person who owns, leases, operates, controls or supervises a refinery. *{added by May 7, 1998 amendment, effective May 15, 1998}*

"Refinery" means a plant which produces petroleum products, including gasoline. *{added by May 7, 1998 amendment, effective May 15, 1998}*

"Refuse" means garbage, rubbish, trade waste, or other waste.

"Regulated air pollutant" means the following:
