CLEAN AIR COUNCIL

Allegheny County Health Department
Air Quality Program

In the Matter of: United States Steel Corporation — Mon Valley Works
400 State Street, Clairton, PA 15025

(Enforcement Order #180601, #190305, #190501, and
Administrative Order No. #181002-Revised)

Proposed Settlement Agreement and Order #190604, dated June 27, 2019

July 31, 2019

Written Comments by Clean Air Council

Clean Air Council ("the Council") submits these written comments regarding the Allegheny County Health Department's ("Department's") proposed Settlement Agreement with The United States Steel Corporation ("Proposed Agreement"), to resolve appeals of Enforcement Order #180601, #190305, #190501, and Administrative Order No. #181002-Revised.

The Council is a non-profit environmental organization headquartered at 135 South 19th Street, Suite 300, Philadelphia, Pennsylvania, 19103. The Council maintains an office in Pittsburgh. For 50 years, the Council has worked to improve air quality across Pennsylvania. The Council has members throughout the Commonwealth who support its mission to protect everyone's right to a healthy environment, including members in Allegheny County. The Council has approximately 35,000 activist members.

The parties agreed to make the Proposed Agreement available for public comment, with the understanding that it may be modified based on the receipt of public comments:

> WHEREAS the Parties acknowledge and agree that this Settlement Agreement is to be placed onto the ACHD website for 30 days beginning July 1, 2019 and that the public be permitted to offer comment. The Parties acknowledge and agree that this Settlement Agreement may be modified to address any comment that the Parties determine necessitates modification.

Proposed Agreement, pages 9-10. The Council submits these written comments, which supplement its verbal comments submitted at the public hearing on July 30, 2019.

1. **The Department Should Revise the Proposed Agreement to Make it Clear that the "Civil Penalty" Only Includes the 10% to be Applied to the Clean Air Fund ($273,250.40).**

While the Department may have assessed a civil penalty of approximately $2.7 million, that civil penalty was reduced by an amount to be applied to something else -- a supplemental environmental project ("SEP"). Therefore, the "civil penalty" includes only the 10% to be applied to the Clean Air Fund ($273,250.40). The Department should revise language in the agreement that states that the company shall pay a civil penalty of $2,732,504, and make similar conforming changes as set forth below. *See* Proposed Agreement Section (V)(9), page 15.

The purpose of a supplemental environmental project is to allow for a mitigation of a civil penalty, and not to act as a civil penalty. *See* U.S. Environmental Protection Agency, *Supplemental Environmental Projects Policy 2015 Update*, page 21, Section IX ("A primary incentive for a defendant to propose a SEP is the potential mitigation of its civil penalty …. Thus, any mitigation of penalties must be carefully considered."). https://www.epa.gov/sites/production/files/2015-04/documents/sepupdatedpolicy15.pdf.[1] EPA has made it clear that supplemental environmental projects are not penalties:

> ***SEPs are not penalties, nor are they accepted in lieu of a penalty***. However, ***a violator's commitment to perform a SEP is a relevant factor for the EPA to consider in establishing an appropriate settlement penalty***. All else being equal, the final settlement penalty will be lower for a violator who agrees to perform an acceptable SEP, compared to the violator who does not.

Id. (bold italics added).

Like the EPA policy statement, the Department's policy is also based on the premise that a supplemental environmental project is separate from a civil penalty. *See* Allegheny County Health Department, Air Quality Program, Civil Penalty Policy, dated January 9, 2018, page 5 ("An agreement by the violator to undertake a SEP, in addition to all actions required for the facility to come into compliance, may result in the mitigation of all or part of the civil penalty."),

[1] This is EPA's most recent policy statement. *See* U.S. EPA, *2015 Update to the 1998 U.S. EPA Supplemental Environmental Projects Policy*, https://www.epa.gov/enforcement/2015-update-1998-us-epa-supplemental-environmental-projects-policy ("The Updated Policy (Update) above revises and supersedes the February 1991 Policy on the Use of Supplemental Environmental Projects (SEPs) in EPA Settlements, the May 1995 Interim Revised SEP Policy, and the May 1998 EPA SEP Policy"). EPA's Civil Penalty Policy identifies a 1991 policy statement, which has been superseded. *See* U.S. EPA, Clean Air Act Stationary Source Civil Penalty Policy, October, 25, 1991, 22, https://www.epa.gov/sites/production/files/documents/penpol.pdf ("[t]he February 12, 1991 Policy on the Use of Supplemental Environmental Projects in EPA Settlements must be followed when ***reducing a penalty for such a project*** in any Clean Air Act settlement") (bold italics added).

page 6 ("The violator may propose a SEP to mitigate all or a portion of the civil penalty. The amount of penalty mitigation allowed for a SEP should be equivalent to a percentage of the estimated cost to implement the SEP."), https://www.alleghenycounty.us/uploadedFiles/Allegheny_Home/Health_Department/Programs/Air_Quality/HPA-363-Civil-Penalty-Policy.pdf.

At some points in the Proposed Agreement, the Department acknowledges this approach. *See* Proposed Agreement Section (V)(9)(A) page 15 ("The Parties agree that supplemental projects benefiting the local communities or environment are a preferred mechanism for ***offsetting a significant portion of the civil penalties***.") (bold italics added). But the Department still erroneously characterizes the money to be applied to the proposed supplemental environmental project as a civil penalty. *See id.*, Section (V)(9), page 15 ("U. S. Steel shall pay a civil penalty of Two Million, Seven Hundred Thirty-Two Thousand, Five Hundred and Four dollars ($2,732,504) for the violations alleged in the ACHD Orders.").

The text of the county's air pollution control regulations provides additional evidence that the proposed supplemental environmental project is not a civil penalty. Under the regulations, civil penalties are to be deposited into the Clean Air Fund:

> ***All penalties, fines***, interest, and other funds received by the County under this Article as a result of consent orders, noncompliance penalties, civil penalty actions, consent decrees, civil penalties, or summary proceedings, other than such funds provided for under paragraph 1 above, ***shall be paid into the Allegheny County Clean Air Fund***.

ACHD Rules and Regulations, Article XXI, Section 2109.07(b)(3), page I-7 (bold italics added), https://www.alleghenycounty.us/uploadedFiles/Allegheny_Home/Health_Department/Article-21-Air-Pollution-Control.pdf. Nothing in the county regulations indicates that civil penalties go to private parties. *See id.*, Sections §2109.02, 2109.03, 2109.06, 2109.07, 2109.09, and 2109.11.

Accordingly, the Department should make the following specific revisions of language in the Proposed Agreement:

1. In the first sentence in Section V(9) on page 15, the Department should change the words "shall pay" to "has assessed,"
2. In the second sentence in Section V(9) on page 15, the Department should change the words "civil penalty" to "this amount,"
3. In the third sentence in Section V(9)(A) on page 15, the Department should change the words "90% of the civil penalty amount included in Paragraph 9 above" to "90% of the civil penalty amount assessed in Paragraph 9 above," and
4. In the sentence in Section V(9)(B) on page 16, the Department should change the words "10% of the civil penalty due under Paragraph 9 above" to "10% of the civil penalty assessed under Paragraph 9 above."

2. The Department Has Not Established that the Proposed Trust Arrangement Would Qualify as a Supplemental Environmental Project.

The Department characterizes the proposed trust arrangement as a supplemental environmental project. *See* Proposed Agreement (V)(9)(A), page 15 ("[t]he Parties agree that supplemental projects benefitting the local communities or environment are a preferred mechanism for offsetting a significant portion of the civil penalties."). But it fails to provide anything more than a cursory description of this proposed project, and there is no evidence that it would be tied to public health, let alone to the reduction of harmful air emissions. This is not consistent with EPA's policy statement or the Department's own policy.

a. *The Department has not met the requirements for a supplemental environmental project under EPA's policy statement*.

While EPA's policy statement does not strictly apply to state agencies like the Allegheny County Health Department, state agencies are free to follow it. *See* U.S. EPA, *2015 Update to the 1998 U.S. EPA Supplemental Environmental Projects Policy*, Section III, page 7, fn. 7 ("These legal guidelines are based on federal law as it applies to the EPA; states may have more or less flexibility in the use of SEPs depending on their laws and this Policy does not purport to identify those requirements."), https://www.epa.gov/enforcement/2015-update-1998-us-epa-supplemental-environmental-projects-policy. In addition, the EPA policy statement is helpful for evaluating the Department's characterization of this arrangement.

EPA has defined supplemental environmental projects as "environmentally beneficial projects which a defendant agrees to undertake in settlement of an enforcement action, but which the defendant, or any other third party, is not otherwise legally required to perform." *See id.*, Section III, page 6. The phrase "environmentally beneficial" means that "a SEP must improve, protect, or reduce risks to public health or the environment." *Id.*, Section III(A), page 6. But the Proposed Agreement provides no evidence that this proposed trust will improve, protect, or reduce risks to public health or the environment. Rather, all it says is that "U.S. Steel shall establish a Community Benefit Trust having the Adjacent Communities as beneficiaries of that trust," and that "[t]he corpus of said trust shall be provided by a payment from U.S. Steel equal to 90% of the civil penalty amount included in Paragraph 9 above." *See* Proposed Agreement, Section V(9)(A), page 15. It also represents that "[t]he Adjacent Communities shall consist of at least the following: Clairton, Glassport, Liberty, Lincoln, and Port Vue." *Id.*

In fact, the Proposed Agreement provides no description regarding how the money is to be applied. This is not the detailed description of a proposed supplemental environmental project that is required by EPA guidance:

> ***The settlement agreement must accurately and completely describe the SEP. It must describe the specific actions to be performed by the defendant, and should include a completion deadline and, where appropriate, interim milestones for long-term or complex SEPs, as well as a detailed cost estimate***. The defendant should also be required to provide documentation

> supporting its cost estimate. ***Negotiating teams should determine what potential SEP costs are not eligible for inclusion in the cost estimate on which the penalty mitigation is based***. Examples of costs to consider that are generally not appropriate for inclusion include: overhead; additional employee time and salary; administrative expenses; most legal fees; and contractor oversight. If the defendant is unable or unwilling to provide documentation supporting its cost estimate, the SEP should not be accepted. ***The settlement agreement should also include a reliable and objective means to verify that the defendant has completed the project on time and in a satisfactory manner***. For complex or long-term SEPs, including a requirement for the defendant to submit periodic status reports is recommended.

See 2015 Update to the 1998 U.S. EPA Supplemental Environmental Projects Policy, Section X(A), page 25 (bold italics added), https://www.epa.gov/sites/production/files/2015-04/documents/sepupdatedpolicy15.pdf. None of these requirements have been met in the proposed agreement.

Given the lack of detail regarding this proposed trust arrangement, it is possible that it is simply the continuation of a longstanding "pay to pollute" approach to the company's air permit violations. The additional wrinkle is that the "payment" now would be going to communities. If that is the case, this would not qualify as a supplemental environmental project under the EPA policy statement. *See id.*, Section VI(C), page 17 (cash donations to community groups, environmental organizations, and other third parties are not acceptable as SEPs),[2] Section VI(E) (projects which, though beneficial to a community, are unrelated to environmental protection are not acceptable as SEPs), Section VI(J), page 18 (projects that are not complete, discrete actions with environmental or public health benefits are not acceptable as SEPs).

b. *The Department has not met the requirements for a supplemental environmental project under DEP's policy statement*.

The Pennsylvania Department of Environmental Protection ("DEP") has its own guidance document on supplemental environmental projects, using the term Community Environmental Projects (CEPs). *See* Pennsylvania DEP, *Policy for the Consideration of Community Environmental Projects in Conjunction with Assessment of Civil Penalty* (2014), http://www.depgreenport.state.pa.us/elibrary/GetDocument. The premise of DEP's policy is that CEPs are different from civil penalties. Rather than including a CEP in a civil penalty, the policy states that DEP may consider a CEP "in determining the amount of the civil penalty." *See id.*, Section II, page 1. Upon review of a proposed CEP, DEP will make a "recommendation regarding final penalty amount taking into consideration the CEP, if deemed acceptable." *See id.*, Section II(D), page 3.

Moreover, the company's longstanding history of noncompliance with the Clean Air Act would disqualify it from advancing the proposed supplemental environmental project:

[2] Federal law prohibits the diversion of penalty funds from the U.S. Treasury. *See id.*, fn. 25.

> ***The department will generally not consider a CEP if*** the violation was intentional, willful, or the result of gross negligence;...***or, the person or regulated entity has a poor compliance history or a pattern of violations similar to the current violation***. Exceptions may be made if the benefit to the community is sufficient to outweigh other concerns.

See id. (bold italics added). As discussed in Comment #6 below, the company has a poor compliance history, with multiple violations at various facilities dating back decades.

In addition, the proposed project would not qualify as a supplemental environmental project under DEP's policy because there is insufficient evidence that it would be related to public health and air quality. *See id.*, Section II(B), page 2 ("[u]nacceptable projects include … [p]erformance of projects not directly related to public health and safety or the environment ….").

Finally, as discussed above under EPA's policy statement, the Proposed Agreement does not provide the necessary factual information required by DEP's policy. *See id.*, Section II(C), page 2 (setting forth requirements for the description of a project in a written CEP proposal, including costs and resource allocation, and proposed benefits to public health and safety or the environment).

c. *The Department has not met the requirements for a supplemental environmental project under the Department's civil penalty policy.*

The Department's Civil Penalty Policy tracks the general principles of EPA's and DEP's policy statement. Its definition of "supplemental environmental project" is similar to DEP's definition. *See* Air Quality Program, Civil Penalty Policy, Section IV, page 5 ("A SEP is defined as a project or activity that improves, protects, or reduces the risk to public health or the environment, and that is not otherwise required by law."), https://www.alleghenycounty.us/uploadedFiles/Allegheny_Home/Health_Department/Programs/Air_Quality/HPA-363-Civil-Penalty-Policy.pdf. Consistent with EPA's policy statement, the Department's policy states that "[t]he SEP must improve, protect, or reduce the risk to public health or the environment." *See id.*, Section IV(A)(1), page 5. Just as the Proposed Agreement fails to satisfy a similar requirement in the EPA policy statement, it also fails to satisfy this requirement in the Department's policy.

In addition, the Department has not included all the details of the proposed supplemental environmental project in the Proposed Agreement. The Department's policy sets forth eight detailed requirements for a SEP proposal:

> The SEP proposal must be in writing and include the following information:
>
> a. Project description;

b. Location of project;
c. Implementation and reporting schedule;
d. Costs of the project with supporting documentation[3];
e. Expected benefits to the public health and/or environment;
f. The area that will benefit from the project;
g. Resources that will be necessary to ensure project completion; and
h. Identify any partners involved in the project.

[3] Documentation such as appraisals, bid proposals, invoices, contracts, and third-party cost estimates may be submitted to establish the estimated cost of the SEP.

Id., Section IV(C)(3), page 7. These requirements are substantially similar to those DEP's policy. *See* PA DEP, *Policy for the Consideration of Community Environmental Projects in Conjunction with Assessment of Civil Penalty,* Section II(C), page 2. While the Proposed Agreement is technically not a "SEP proposal," the details of the supplemental environmental project would presumably such information, and the Department's policy requires that the details be included in the Proposed Agreement:

> ***The details of any SEP***, including schedules and interim reporting schedules, ***shall be*** agreed to by all parties and be ***made a part of the legally enforceable settlement document***.

See id., Section IV(C)(5), page 8 (bold italics added). Again, all we know about this proposed project is that the company will put a certain amount of money into a trust for several communities.

Under either EPA's policy statement or the Department's policy, the proposed project does not qualify as a supplemental environmental project.

3. <u>The Department Has Not Established that the Proposed Agreement Will Lead to Significant Reductions in Air Emissions from the Clairton Facility</u>.

Third, it is questionable whether the agreement will lead to significant emissions reductions. There are uncertainties regarding how much the replacement of the PEC baghouses will reduce air emissions. The long timetable raises the question whether equipment should or would have been replaced anyway. Any emissions reductions from the installation of a mechanism to reduce fugitive emissions from the B Battery shed would be modest. It is unclear whether and to what extent there may be emissions reductions from a stack replacement or a "through wall" repair.

Because the company has repeatedly violated air permit requirements, it should do more to upgrade its equipment to reduce emissions. For example, the facility should explore the installation of spring-loaded doors on the coke oven batteries. It should consider dry quenching, alternative means of charging, improved ways of stopping leaks, and cleaner testing methods.

Most of the proposed technical measures involve changes that fail to prescribe substantive requirements that would reduce air emissions. *See* Proposed Agreement, pages 12-15. Out of the entire compliance plan, there are only a few technical measures that directly address reducing air emissions, but there is insufficient evidence to indicate there will be a significant reduction in air emissions.

First, installing a mechanism to reduce fugitive emissions from the B Battery shed is not likely to result in a significant reduction of emissions. *See* Proposed Agreement Section IV(A), page 12. Based on the facility's actual emissions in 2014, fugitive emissions from the B Battery shed (PEC Fugitives) were about 5.75 tons/yr of PM2.5 and 11.5 tons/yr of PM10. *See* Attachment 1, 2014 Air Emissions Inventory, Table 2.1.A. Therefore, any reductions in air emissions would be modest.

Similarly, provisions requiring monthly flue temperature readings are not likely to lead to direct emissions reductions. *See* Proposed Agreement, Section IV(C), page 12 (requiring the company to "conduct monthly flue temperature readings to determine battery performance..."). The Proposed Agreement does not prescribe what the company must do if the temperature readings reach a particular threshold. It should contain more specific terms that indicate what the company should do if it finds that batteries are underperforming by leaking additional emissions.

Additionally, air compliance audits conducted by third parties are not likely to lead to direct emissions reductions. *See* Proposed Agreement Section (V)(D), page 13. Also, there is a vague description of a corrective action plan that the company would have to submit. The language merely requires the company to "address audit findings." *See id.* Also, the requirement that the corrective action plan be "technically and economically feasible" provides an opportunity for the company to avoid meaningful improvements. Finally, the language only states that "[t]he ACHD will review and may approve the corrective action plan." *See id.* The agreement should instead state that "[t]he ACHD will review and shall approve or disapprove the corrective action plan," and the agreement should require the company to submit another corrective action plan following a disapproval by the Department, for approval or disapproval.

Replacing the PEC baghouses could potentially reduce air emissions, but it is not clear whether there would be a meaningful decrease in air emissions. *See* Proposed Agreement Section (IV)(E), page 13. There have been significant emissions of particulates from the batteries. In 2017, PEC fugitive emissions of $PM_{2.5}$ from batteries 13-15 were 27.82 tons and PEC fugitive emissions of $PM_{2.5}$ from batteries 19-20 were 29.22 tons. *See* Attachment 2, Allegheny County Health Department, 2017 Air Emission Inventory, Table 2.1.A. In that same report, PEC fugitive emissions of PM_{10} from batteries 13-15 were 55.65 tons and PEC fugitive emissions of PM_{10} from batteries 19-20 were 58.43 tons. *See id.* But replacement of the PEC baghouses will not entirely eliminate these emissions.

Moreover, the Proposed Agreement contemplates the submission of an installation permit in July 2020 and the construction of new baghouses within 28 months afterwards. This means a period of over three years. To evaluate this proposal, it is important to consider the facility's timeframe for maintenance and upgrades to the baghouse system, and the existence of newer and

more improved baghouse technologies. The Department should provide more information so that the public can evaluate the effectiveness of this proposal.

The stack replacement is not likely to directly reduce air emissions because emission stacks are not control devices. *See* Proposed Agreement Section (IV)(G), page 14. Rather, they simply act as a conduit to loft emissions so that they may disperse more readily. Generally speaking, add-on stack controls could be inserted on an emission stack to reduce emissions. But the Proposed Agreement does not specify any such requirements. *See id.*

As with the PEC baghouses, there are uncertainties regarding whether a "through wall" repair may reduce emissions. *See* Proposed Agreement, Section (IV)(H), page 14. A "through wall" is a wall between different ovens in a battery. It is not the external wall of a battery. The uncertainties include the extent of the damage of the original wall, how efficient the repair will make the ovens, and how this will translate into emissions reductions.

A solution that would help reduce air emissions significantly would be replacing leaking doors with spring-loaded doors. According to the Air Emissions Inventories from 2014 and 2017, significant emissions from the Clairton facility have come from leaking doors. Requirements to update and improve these leaking doors are notably absent from the agreement. If the company is paying a civil penalty for violating air permit requirements, it is incumbent on the company to upgrade its equipment to reduce its air emissions, and not simply put money into a trust for communities.

Other potential technologies and solutions that could be implemented at the Clairton Works to achieve meaningful emissions reductions include single oven pressure control, such as the PrOven system employed on Battery C, a dry quench cogeneration system, German testing methodologies, and more complete coke side enclosures. All of these technologies exist and are currently implemented outside of the United States, particularly in Japanese and German steel making industries. The simple fact that they are not currently implemented in the United States is no excuse to dismiss them out of hand, especially when real strides towards meaningful emissions reductions could be made.

4. <u>The Department Sets Bad Policy by Perpetuating an Expectation of Less than 100% Compliance</u>.

The Proposed Agreement perpetuates an understanding to base proposed regulations on a certain percentage of past noncompliance. The proposed settlement appears to be the culmination of a coke oven regulatory initiative that was unsuccessful last year. *See* Proposed Agreement, Section VII(12), page 19 ("The Department may pursue a rulemaking to impose more stringent limits on the coke batteries (except C Battery) only if the more stringent limits are determined to be, inter alia, technically feasible in accordance with this Paragraph."). Only if proposed standards would result in a compliance rate of 99% for all regulated emissions points on a battery over any consecutive 12-month period during this five-year period, would proposed regulations be acceptable. *See id.*, Section VII(12)(B), page 20. If the basis for proposed regulations is a past level of noncompliance, this acts as a strong impediment to improving the regulations.

Last year, the Department backed down from its proposed coke oven regulations after the company criticized it for asserting that they were based on "an analysis and review by individuals with extensive coke oven experience," rather than on the company's ability to attain and maintain the proposed standards. But there is nothing wrong with conferring with individuals with extensive coke oven experience to find technical innovations to improve compliance at the facility. The question is not whether the retrospective application of proposed regulations would have hypothetically resulted in a greater number of violations. (The answer to this loaded question will always be "yes"). Rather, the real question is what the company can do to reduce emissions, by developing appropriate technologies or changing methods of operation.

In 2018, the Department proposed revisions of its coke oven regulations. Following a conference with the company, the Department stated that the proposed regulations were based on an analysis and review of current regulations and a discussion of proposed revisions with individuals with extensive coke oven experience. *See* Attachment 3, Letter from the Department to U.S. Steel, dated August 1, 2018. In response, the company argued that this was a change from the understanding of the parties regarding the basis for the regulations. The company stated that the understanding was that the regulations were "based upon a review of U.S. Steel inspection data by the county that purportedly showed that U.S. Steel was able to attain and maintain the proposed standards." *See* Attachment 4, Letter from U.S. Steel to the Department, dated August 22, 2018.

Subsequently, the company made a presentation to the Department in which it asserted that "U. S. Steel has not identified any other by-product coke battery that can continuously achieve compliance with the current Article XXI standards let alone the proposed Article XXI standards." *See* Attachment 5, U.S. Steel Presentation dated October 9, 2019. It stated that it is working with a consultant to review the proposed coke oven regulations to see if any battery on a world-wide scale is capable of meeting the standards on a continuous basis. *Id.* It requested that the revision of the coke oven regulations be deferred until completion of the approved U. S. Steel's battery assessment dated August 6, 2018. In March 2019, the Department issued an Administrative Order to the company compelling it produce information and documents which it had promised to provide but had not done so. *See* Administrative Order dated March 19, 2019.

As the Council has not seen any further action toward the finalization of the coke oven regulations that were proposed last year, the Proposed Agreement represents a step backward for coke oven regulations.

5. <u>The Department Compounds Bad Policy by Restricting its Ability to Adopt Technology-Forcing Regulations.</u>

Rather than looking to other technological developments outside the facility as a basis for proposed regulations, the company has persuaded the Department to use its record of noncompliance as the baseline for evaluating the acceptability of any proposed regulations. *See* Proposed Agreement, Section VII(12), page 19 ("The Department may pursue a rulemaking to impose more stringent limits on the coke batteries (except C Battery) only if the more stringent limits are determined to be, inter alia, technically feasible in accordance with this Paragraph.").

The phrase "technically feasible" is defined by reference to past compliance, rather than by reference to available or potentially available technology. *See id.*, Section VII(12)(B), pages 19-20. This hamstrings the Department's ability to make its coke oven regulations more stringent or to facilitate improvements in technology.

In other words, the Department has made an agreement with the company not to promulgate any coke oven regulations that are technology-forcing in nature. Technology-forcing regulations are regulations that require a level of performance that may be achievable in the future, even if it is not achievable now. (This is what led to the development of the catalytic converter in cars).

The question of what the company can do to comply with the proposed regulations has been missed entirely, both in the communications between the company and the Department, and in the text of the Settlement Agreement itself. The company and the Department have not been discussing the things that the company can be doing in order to come into compliance with the proposed regulations. If the company is ever going to achieve emissions reductions, that dialogue must change.

6. <u>The Proposed Agreement Continues to Allow the Company to "Pay to Pollute"</u>.

All of this leads to the Department continuing to allow the company to "pay to pollute." The money is simply a cost of doing business, and it is less than what the company would have to spend to actually address the problem. The Battery C upgrade in 2012 reportedly cost at least $500 million. *See* Graycor, Project Scope, http://www.graycor.com/projects/us-steel-clairton-plant-coke-oven-battery/ ("Graycor Industrial Constructors completed work on United States Steel Corp.'s C Battery at the steelmaker's Clairton Plant, the nation's largest coke manufacturing facility with an annual production rate of 4.5 million tons. The $500-million project, which represents the largest investment ever made at the plant, replaces decades of old coke ovens with new environmentally advanced technology. U.S. Steel's C Battery at Clairton was put into operation in November 2012").

The "pay to pollute" concept involves corporations treating fines "as predictable business expenses that can be weighed against the cost of changing a product or process to make it safer." Darlene R. Wong, *Stigma: A More Efficient Alternative to Fines in Deterring Corporate Misconduct*, 3 Cal. Crim. L. Rev. 3, 1 (Oct. 2000), https://pdfs.semanticscholar.org/4653/806397c0b0ab40f12007e6cd5ed3cffbbe7e.pdf. Unless penalties are greater than "what it would cost to comply with environmental laws, they encourage rather than deter non-compliance." David R. Hodas, *Enforcement of Environmental Law in a Triangular Federal System: Can There Not be a Crowd When Enforcement Authority is Shared by the United States, the States, and Their Citizens?* 54 Md. L. Rev. 1552, 1606 (1995), https://digitalcommons.law.umaryland.edu/cgi/viewcontent.

In Allegheny County, the phenomenon has a particular dimension. On the one hand, the coke oven regulations are reportedly the most stringent in the country. *See* Attachment 5, U.S. Steel Presentation, page 4 ("[t]he existing Article XXI coke oven regulations are the most stringent across the country"). On the other hand, the company asserts it cannot comply with

existing regulations, let alone the proposed regulations. *See id.*, page 8 ("To date, U. S. Steel has not identified any other by-product coke battery that can continuously achieve compliance with the current Article XXI standards let alone the proposed Article XXI standards."). The practical effect is that the Department can easily impose a civil penalty that the company will readily accept as a means of stalling needed upgrades. The people in the community who have to breathe the bad air get whipsawed when enforcement actions and regulatory initiatives do not address the things the company needs to do to significantly reduce air emissions.

To illustrate the concept of "pay to pollute," the desulfurization plant breakdown for three months this year was not a first-time event. It happened in 2009, when there was a four-month failure of the plant's desulfurization plant:

> On September 3, 2009, U. S. Steel's Mon Valley Clairton Plant incurred a catastrophic failure of its Desulfurization Plant. Because of this event, the Clairton, Edgar Thomson, and Irvin plants exceeded their sulfur limit for air emissions when burning coke oven gas. ***The Desulfurization Plant was inoperable from September 3, 2009 through early January 2010***. On March 25, 2010, the ACHD issued an NOV and a Settlement Offer for the Statement of Violation for the Clairton Plant for the last three quarters of 2009, which included alleged violations attributable to the outage of the Desulfurization Plant. ***The NOV was settled in the second quarter of 2010 without admission of liability with a penalty payment of $61,225***.

United States Steel Corporation, 2010 Form 10-K, page 46 (bold italics added), https://www.sec.gov/Archives/edgar/data/1163302/000119312511042228/d10k.htm. The payment of a civil penalty did not prevent the second event this year.

Moreover, the context is a long history of enforcement actions against the company under the Clean Air Act. Since 1990, a combined 91 formal enforcement actions have been initiated against the Clairton Plant and the Edgar Thomson Plant. *See* U.S. Environmental Protection Agency, *Integrated Compliance Information System - Air, USS/Clairton Works*; U.S. Environmental Protection Agency, *Integrated Compliance Information System - Air - USS/Edgar Thomson Works*, https://enviro.epa.gov/enviro/airsquery.detail_plt_view?p_id=PAACH0004200300202. Most of these formal enforcement actions (85 in number) were filed based on violations at the Clairton facility. *See id.*

Many of these resulted in large penalties. In a 1993 consent order, there was a $1.8 million penalty. *See* U.S. Environmental Protection Agency, *FY 1993 Enforcement Accomplishments Report*, page 3-102, https://nepis.epa.gov/. In 1994, EPA brought an action for violations of NOx standards, leading to a $125,000 penalty. *See* U.S. Environmental Protection Agency, *Enforcement and Compliance Assurance Accomplishments Report, FY 1995, page A-17,* https://nepis.epa.gov/Exe. In 1999, a penalty of $550,000 was imposed for visible emissions violations in 1996 and 1997. Notice of Lodging of Consent Decree Under the Clean Air Act, 64

Fed. Reg. 61,663 (November 12, 1999), https://www.govinfo.gov/content/pkg/FR-1999-11-12/pdf/99-29511.pdf. In 2007, there was a consent order involving a $395,900 penalty. *See* U.S. Environmental Protection Agency, *Civil Enforcement Case Report, USS/Clairton Works 420030003200472*, https://echo.epa.gov/. In 2008, there was a consent order involving a $301,800 penalty. Allegheny County Health Department, *Consent Order and Agreement* (March 17, 2008), http://pacokeovens.org/wp-content/uploads/2016/08/17-Mar-2008-USS-ACHD-consent-agreement.pdf.

In 2014, there was a $300,000 penalty for violations associated with new equipment installed in 2012. *See* U.S. Environmental Protection Agency, *Civil Enforcement Case Report, 8/7/2014 Battery C CO & A, stack test failure*, https://echo.epa.gov/enforcement-case-report?id=PAACHA200117975. In 2016, a $3.973 million penalty for opacity violations from the company's coke batteries was memorialized in a consent judgment. *See Consent Judgment*, County of Allegheny v. U.S. Steel, No. GD-16-004611 (Ct. Com. Pl. Allegheny County 2016), http://pacokeovens.org/how-is-coke-regulated/actions-against-u-s-steel-clairton/.

Despite that $3.973 million penalty in 2016, the company's batteries have continued to violate opacity standards. For these violations, the company paid another $34,000 penalty in 2017 and another $45,400 penalty in 2018. *See* Attachment 6, *U.S. Steel Clairton Works Title V Operating Permit #0052 Quarterly Report* (Jan. 2017-Mar. 2017), page 2; *See* Attachment 7, *U.S. Steel Clairton Works Title V Operating Permit #0052 Quarterly Report* (Jan. 2018-Mar. 2018), page 2.

The Proposed Agreement presents a new twist to this historical pattern. Now, the Department proposes to direct some of the money to adjacent communities. *See* Proposed Agreement, Section (V)(9)(A), page 15 (requiring the payment of $2,459,253.60 into a proposed trust for adjacent communities). If there were no *quid pro quo* for this payment, this arrangement might not be objectionable. But the consideration for this payment is that the Department is significantly restricting its ability to adopt proposed coke oven regulations in the future. (See Comment # 4 and Comment # 5 above). That is why this continues to be a "pay to pollute" arrangement.

Of course, the payment of $2.7 million payment is a relatively low cost of doing business for the company. In 2018, the company increased its profits by over half a billion dollars. It reported more than $950 million in adjusted net earnings, which was approximately $616 million more than the previous year. United States Steel, *United States Steel Corporation Reports Fourth Quarter and Full-Year 2018 Results*, https://www.sec.gov/Archives/edgar/data/1163302/000116330219000006/x20181231earningsrelease.htm. Because the Battery C upgrade in 2012 reportedly cost upwards of $500 million, there is a clear incentive for the company to continue business as usual, paying to pollute. *See* Graycor, Project Scope, http://www.graycor.com/projects/us-steel-clairton-plant-coke-oven-battery/.

The Department does not lack enforcement options. The Department has a statutory responsibility to protect the "health, safety and welfare of all its citizens" by ensuring that industrial sources comply with emission standards. *See* Allegheny County Health Department,

Rules and Regulations, §2101.02(a)(1), §2101.07(a). It has authority to restrain or enjoin violators "from engaging in any activity in violation of a regulation or permit that is presenting an imminent and substantial endangerment to the public health or welfare, or the environment." *Id.*, §2109.2(a)(1). It has authority to revoke any license or installation or operating permit associated with the noncompliant facility. *Id.*, §2109.2(a)(2). It should be using these authorities to require the company to do things to bring its coke oven batteries into compliance. These things may include the technical options set forth in Comment # 3 above.

Considering the repeating cycle of noncompliance followed by enforcement action followed by noncompliance, it is clear that this is just a "pay to pollute" arrangement. The Department can and should be doing better than this for its citizens.

7. <u>The Proposed Agreement Fails to Provide Sufficient Information Regarding the Proposed Trust Arrangement</u>.

The Proposed Agreement does not provide sufficient details regarding the trust arrangement, including limits on the use of the money. Presumably, the creation of a trust will require a written document. But none is attached. The public cannot understand it without a written agreement. There is no discussion regarding the appointment or duties of a trustee, which presumably would be an individual or organization not affiliated with the company.

Pennsylvania is one of twenty-two states that have adopted the Uniform Trust Code. *See* 20 Pa.C.S. §7701 et seq. Under the code, a trust is created only if "the settlor signs a writing that indicates an intention to create the trust and contains provisions of the trust." *See* 20 Pa.C.S. §7732(a)(2). Furthermore, a trust is created by a written instrument, written declaration, or a written exercise of a power of appointment. *See* 20 Pa.C.S. §7731. Absent a trust instrument explaining the details, it is impossible for people in the community to evaluate the proposed trust arrangement.

Additionally, a formal trust agreement is necessary for determining the classification of any proposed trust arrangement. It is unclear if the parties are contemplating a charitable trust or a private (noncharitable) trust. The Proposed Agreement merely states that the beneficiaries of the trust will include "the Adjacent Communities." This vague reference does not identify who exactly would be recipients of distributions from the trust, and what would be proper purposes for such distributions. To be valid, a noncharitable trust must have definite beneficiaries. *See* 20 Pa.C.S. §7732(a)(3). In the case of a charitable trust, the beneficiaries do not need to be unspecified. *See* 20 Pa.C.S. §7732(a)(3)(i). This distinction is crucial because different requirements may apply. *See e.g.*, 20 Pa.C.S. §7735 (setting forth requirements for enforcement of a charitable trust); §7740.4 (setting forth requirements for modification or termination of a noncharitable trust).

Similarly, the purpose of the proposed trust arrangement is vague. The only indication of the purpose of the trust is the suggestive name used to identify the trust -- a "Community Benefit Trust." *See* Proposed Agreement, Section V(9)(A), page 15. Because there is no limitation on the use of money in the trust, we do not know what is the purpose of the proposed trust. *See id.*, pages 15-16.

Finally, the Proposed Agreement is silent regarding the identity of the trustee of the trust and the role of the company in the administration of the trust. The company should not be allowed to participate in the management or distribution of any trust assets. *See* 20 Pa.C.S. §7774 ("***A trustee shall administer the trust as a prudent person would***, by considering the purposes, provisions, distributional requirements and other circumstances of the trust and by exercising reasonable care, skill and caution.") (bold italics added); *see also* 20 Pa.C.S. §7780.5 (("a ***trustee*** has ***all the powers*** over the trust property...") (bold italics added). As the settlor, or creator of the trust, trustee should serve the purpose of the trust and "administer the trust solely in the interests of the beneficiaries." *See* 20 Pa.C.S. §7772(a).

Thank you for your consideration of the comments of the Council.

Mail Station 26
Pittsburgh, PA 15222

Re: Proposed revisions to Article XXI § 2105.21, Coke Ovens and Coke Oven Gas

Dear Mr. Hardin:

During the Air Quality Program Regulation Subcommittee meeting held on July 10, 2018, a representative of U.S. Steel Corp. requested a meeting with the Allegheny County Health Department (ACHD) to discuss the proposed revisions to the Coke Ovens and Coke Oven Gas regulations. U.S. Steel further requested that the ACHD provide its analysis of the inspection data relating to the proposed revised regulations.

There appears to be some misunderstanding as to the ACHD's reasoning and process for revising the coke oven regulations. It is important to note that one of the primary purposes of Article XXI is to "establish rules and regulations governing air pollution control in order to . . . [p]rotect the health, safety and welfare of the citizens of Allegheny County." Article XXI, § 2101.02.c.1. When the ACHD undertook the process of revising the regulations, the focus was on what standard should coke ovens be required to meet in order to "protect the health, safety and welfare of the citizens of Allegheny County." As part of this process, the ACHD analyzed and reviewed the current coke oven regulations and discussed proposed revisions with individuals with extensive coke oven experience. Based on this analysis, the ACHD determined what requirements that coke ovens in Allegheny County should be required to meet. It was only after this determination was made did the ACHD review and analyze the inspection data to confirm whether U.S. Steel has been able to meet these standards.

During the July Regulation Subcommittee meeting, U.S. Steel agreed with the ACHD that in order for any meeting to be productive, it is necessary for both sides to provide its analysis as to U.S. Steel's compliance with the proposed revised regulations. In response to this request, please find attached the ACHD's compliance analysis. Prior to meeting to discuss the proposed regulations, the ACHD requests that U.S. Steel produce an analysis of why it can or cannot meet

KAREN HACKER, MD, MPH, DIRECTOR
ALLEGHENY COUNTY HEALTH DEPARTMENT
AIR QUALITY PROGRAM
301 39TH STREET • CLACK HEALTH CENTER • BUILDING 7
PITTSBURGH, PA 15201-1811
PHONE (412) 578-8103 • FAX (412) 578-8144
24-HR (412) 687-ACHD (2243) • WWW.ACHD.NET

the proposed standards and to support this position with internal data from its own inspectors, ACHD inspectors, or ACHD's Method 303 contractor showing compliance rates under the proposed standards. If U.S. Steel is unwilling to produce its analysis and basis for being unable to meet the proposed regulations, then the ACHD does not believe that a meeting would be productive.

Please advise by **August 6, 2018** whether U.S. Steel agrees to produce the requested information prior to a meeting with the ACHD. If U.S. Steel is agreeable to this condition, then the ACHD and U.S. Steel can proceed with scheduling a meeting prior to the next Regulation Subcommittee meeting in September. Currently, the ACHD is available to meet on the following dates and times:

Thursday, August 16 at 1:00 PM
Monday, August 20 at 9:00 AM
Monday, August 27 at 9:00 AM and 1:00 PM

Please advise as to which date and time that you are available. Additionally, the ACHD will need U.S. Steel's analysis at least five days prior to the meeting.

Sincerely,

Jayme Graham
Air Quality Manager

Proposed §2105.21 - Coke Oven Regulations

Unless otherwise noted, the information which was reviewed to determine compliance with the proposed regulations was the 2017 calendar year inspections conducted by Allegheny County Health Department and its Method 303 contractor.

Charging

The below table shows the percentage of inspections analyzed which met the proposed standard of 10 seconds or less per charge in calendar year 2017. Only ACHD's Method 303 contractor's inspection information was used for charging because it was the only information which ACHD had electronically on a per-charge basis.

Charging

Battery	% of inspections for each battery which were 10 seconds or less per charge
all batteries	95.36%
1	96.16%
2	93.59%
3	95.78%
13	93.86%
14	93.21%
15	97.32%
19	98.96%
20	99.23%
B	90.03%
C	95.45%

Doors

The below table shows the cumulative percentage and number of inspections analyzed which had the range of percentage leaks or lower shown in calendar year 2017 by ACHD and its Method 303 contractor. For example, line 33, 2%-2.49% leaking, shows there were 165 inspections in that range and 86.70% of inspections were 2.49% or less leaking.

Doors

% leaking	Inspections	cumulative %
0 or less	2317	57.05%
0-0.49	0	57.05%
0.5-0.99	565	70.97%
1-1.49	187	75.57%
1.5-1.99	287	82.64%
2-2.49	165	86.70%
2.5-2.99	131	89.93%
3-3.49	116	92.79%
3.5 or more	293	100.00%

Lids

The below table shows the percentage of inspections analyzed which met the proposed standard of 0 leaks in calendar year 2017 by ACHD and its Method 303 contractor.

Lids

% leaking	Inspections	% of total
0	3903	96.59%
> 0	138	3.41%

Offtakes

The below table shows the cumulative percentage and number of inspections analyzed which had the range of percentage leaks or lower shown in calendar year 2017 by ACHD and its Method 303 contractor. For example, line 59, 2%-2.49% leaking, shows there were 209 inspections in that range and 97.40% of inspections were 2.49% or less leaking.

Offtakes

% leaking	Inspections	cumulative %
0	1822	45.09%
0.01-0.49	190	49.79%
0.5-0.99	826	70.23%

1-1.49	219	75.65%
1.5-1.99	670	92.23%
2-2.49	209	97.40%
2.5-2.99	35	98.27%
3-3.49	20	98.76%
3.5 or more	50	100.00%

Pushing

The below table shows the percentage of inspections analyzed which met the proposed standard of less than 10% opacity in calendar year 2017. Only ACHD's inspection information was used for pushing because ACHD's Method 303 contractor does not conduct pushing inspections.

Pushing

% opacity	Inspections	% of total
0 or 5	1011	68.31%
10 or more	469	31.69%

Travel (Part of Pushing)

The below table shows the percentage of inspections analyzed which met the proposed standard of less than 10% opacity in calendar year 2017. Only ACHD's inspection information was used for travel because ACHD's Method 303 contractor does not conduct travel inspections. Travel is being proposed to be part of the push and not to be a separate inspection.

Travel

% opacity	Inspections	% of total
0 or 5	1010	76.00%
10 or more	319	24.00%

Soaking

The below tables show the percentage and number of inspections analyzed which met the proposed standard of 0% opacity in calendar year 2017. Only ACHD's inspection information was used for soaking because ACHD's Method 303 contractor does not conduct soaking inspections. This was analyzed both for soaking where a flame was present and soaking where a flame was not present because the proposed regulation will not differentiate.

Soaking without a flame

% opacity	Inspections	% of total
0	1814	88.75%
> 0	230	11.25%

Soaking with a flame

% opacity	Inspections	% of total
0	2003	97.99%
> 0	41	2.01%

RE: Proposed Revisions to Article XXI § 2105.21, Coke Ovens and Coke Oven Gas

Dear Ms. Graham:

In response to your letter of August 1, 2018, U.S. Steel is providing its compliance analysis of the proposed revisions to Article XXI §2105.21. We respectfully note that we do not believe there was a misunderstanding as to what was explained during the July 10, 2018 meeting. All of the U. S. Steel representatives left the meeting with the clear understanding that the Department indicated that the revised standards had been developed based upon a review of U.S. Steel inspection data by the County that purportedly showed that U.S. Steel was able to attain and maintain the proposed standards. Your letter described a very different process that apparently included an analysis and review by individuals with extensive coke oven experience. We hope you will be able to provide us with a better understanding of the change.

As you will see, we followed the format of the Allegheny County Health Department ("ACHD") compliance analysis to see if existing data support the apparent conclusion reached by the ACHD that 2017 inspection data established and confirmed that U.S. Steel would be able to meet these standards at all ten of its Clairton coke batteries. Based on U. S. Steel's analysis, we concluded that the proposed draft standards would not be met based on 2017 data and would jeopardize the competitiveness of the Clairton Plant and the U. S. Steel Mon Valley Works.

Because of the limited time, we also were unable to evaluate the potential impact of several of the other revisions that were not addressed in the ACHD emissions analysis. We look forward to discussing those matters with you on Monday to better understand the thinking behind those proposed revisions.

Sincerely,

Chris Hardin

Mike Dzurinko (U. S. Steel – via email)

ACHD 2017 Data Analysis of proposed new rule compared to USS 2017 Data under the current rule.

Charging - 10 seconds/ charge
ACHD analysis indicates 4.64% of ACHD Method 303 inspections would exceed the 10 second limit.
In 2017, USS has total of 4018 inspections.
This would result in 186 violations under the new rule.
Under the current rule, there were 124 violations in 2017, or 3.09%.
Estimated increase of 62 violations.

Doors - 1 leaking door allowed per side
ACHD notes that 540 inspections out of 4061 are % leaking 2.5 or >, which is 13.3% of inspections. *Note: The 2.5% cutoff may not be correct, based on 1 leak allowed per side.
USS calculated an average % leaking in which we would exceed 1 leaking door per side. This % is 1.44%.
Therefore, there would be 992 inspections out of 4061 that are % leaking 1.5 or >, which is 24.2%.
Under the current rule, there were 34 violations in 2017, or 0.67%.
Estimated increase of 958 violations.

Lids - no visible emissions allowed
ACHD notes that 138 inspections out of 4,040 observations are greater than 0% leaking, which is 3.41% of inspections.
Under the current rule, there were 37 violations in 2017, or 0.92%.
Estimated increase of 101 violations.

Offtakes - 1 leaking pipe allowed per side
ACHD notes that 105 readings out of 4040 readings are % leaking 2.5 or >, which is 2.6% of inspections. *Note: The 2.5% cutoff may not be correct, based on 1 leak allowed per side.
USS calculated an average % leaking in which we would exceed 1 leaking door per side. This % is 1.44%.
Therefore, there would be 984 inspections out of 4040 that are % leaking 1.5 or >, which is 24.4%.
Under the current rule, there were 36 violations in 2017, or 0.89%.
Estimated increase of 948 violations.

Pushing - 10% opacity any time
ACHD notes that 469 inspections out of 1480 inspections are 10 or more % opacity, which is 31.69% of inspections.
Under the current rule, there were 37 violations in 2017, out of a total of 3021 observations, which is 1.22%.
Estimated increase of 432 violations.

Traveling - combined with pushing/ 10% opacity any time
ACHD notes that 319 inspections out of 1329 inspections are 10 or more % opacity, which is 24% of inspections.
Under the current rule, there were 31 violations in 2017, out of a total of 3021 observations, which is 1.03%.
Estimated increase of 288 violations.

Soaking - no visible emissions allowed
ACHD deciphers between flame/ no flame, but in summary, 271 inspections out of 4088 inspections had % opacity > 0, which is 6.6% of inspections.
Under the current rule, there were 154 violations in 2017, out of a total of 4088 observations, which is 3.8%.
Estimated increase of 117 violations.

In 2017, under the new proposed rule, U. S. Steel would have had an additional 2906 violations.
2906

	Current Standard	Proposed Revised Standard	Proposed vs current standard adjustment	PADEP Coke Battery Regulations	Total inspections (2017)	Exceedances Under Current Rule (2017)	Compliance Rate Under Current Rule (2017)	Projected Exceedances Under Revised Rule (based on ACHD's determinations)	Compliance Rate Under Proposed Revised Standard	Percent Increase in Number of Exceedances
Charging	55/75 sec per 5 consec charges	10 sec/charge	as high 33% more stringent; No averaging	75 sec/4 consecutive charges	4018.00	124.00	96.91	186.00	95.37	50.00
Doors	3% - 8%	1 door leak/side	as high as86% more stringent	10% of the door area of operating coke ovens, excluding the two-door area representing the last oven charged on any battery and any door areas obstructed from view	4061.00	34.00	99.16	992.00	75.57	2817.65
Lids	0.6% - 2%	No VE allowed	Infinitely more stringent	At no time may there be visible topside emissions from more than 2.0% of the charging port seals on operating coke ovens in any battery, excluding visible emissions from no more than three ovens which may be dampered off.	4040.00	37.00	99.08	138.00	96.58	272.97
Offtakes	4% - 5%	1 pipe leak/side	as high as 50%	At no time may there be topside emissions from more than 5.0% of the offtake piping on operating coke ovens in any battery, excluding visible emissions from open standpipe caps on no more than three ovens which may be dampered off.	4040.00	36.00	99.11	105.00	97.40	191.67

U.S. Steel Presentation
October 9, 2019

United States Steel Corporation

Proposed Revisions to Article XXI 2105.21, Coke Ovens and Coke Oven Gas

- ACHD Conference Room
- October 9th, 2018

Liberty Monitor PM2.5

- In public statements, ACHD has alleged that an upward trend in fine particulate matter (PM2.5) concentrations at the Liberty Monitor is occurring, distinguishing it from other regional PM2.5 monitors.

- However, based on ACHD's annual data summary report, in 2017, PM2.5 increased at ***all*** ACHD monitors compared to 2016.
  - *South Fayette background monitor +0.7, Liberty monitor +0.6*
  - *Liberty monitor trends with the South Fayette monitor*

- This information indicates that any asserted "upward trend" is a regional issue and not a local issue.

Monitoring Site	2016 Annual Average	2017 Annual Average	Differential
Liberty	12.8	13.4	+0.6
North Braddock	10.8	11.0	+0.2
Avalon	9.7	10.4	+0.7
Harrison	9.5	10.0	+0.5
Clairton	9.3	9.8	+0.5
Lawrenceville	9.0	9.2	+0.2
South Fayette	8.0	8.7	+0.7
North Park	7.8	8.3	+0.5

BACKGROUND →

Liberty Monitor PM2.5

- U. S. Steel reviewed ACHD PM2.5 Federal Reference Method (FRM) data from the Liberty Monitor for the 1st and 2nd quarters of 2018.
  - 2018 data indicates that the Liberty monitor is below the annual PM2.5 standard (12 µg/m3).
    - PM2.5 average = 11.8 µg/m3
  - 2018 data also indicates that there has been a significant decline (only 1 exceedance of the 24-hr PM2.5 standard)

Year	Avg. PM2.5	# of Daily Exceedances
2016	12.8	13
2017	13.4	10
2018*	11.8	1

**1st and 2nd Quarter only.*

United States Steel Corporation

Comparison of Article XXI Regulations to other Batteries

- The existing Article XXI coke oven regulations are the most stringent across the country. C Battery is BACT/LAER, and ACHD is proposing regulations that are more stringent than BACT/LAER.
- ArcelorMittal Monessen Plant is ~9.5 miles from USS Clairton but outside of Allegheny County.
- Monessen's coke oven regulations are substantially less stringent than USS.
- U. S. Steel is at a significant competitive disadvantage versus its competitors with no demonstrated appreciable environmental benefit.

United States Steel Corporation

Comparison of Article XXI Regulations to PA Code

ACHD Current Article XXI	ACHD Proposed Article XXI	PA Code Section 123/129
Charging		
Pre-1978: 75 seconds during 4 consecutive charges; Post-1978: 55 seconds during 5 consecutive charges	Ten (10) seconds per charge	Four consecutive charges equal more than 75 seconds
Doors		
Pre-1978: 10% of door areas; Post-1978: 5% of door areas; Batteries 1-3,19: 8% of door areas	1 leak allowed per observed side	10% of the door area of operating coke ovens, excluding the two-door area representing the last
40% opacity limit for 15 minutes or longer after the last charge	30% opacity limit	40% opacity limit for 15 minutes or longer after the last charge
Charging Ports		
Pre-1978: 2% of the charging ports; Post 1978 - 1% of the charging ports	No visible emissions	2.0% of the charging port seals, excluding visible emissions from no more than three ovens which may be dampered off
Offtakes		
Pre-1978: 5% of offtake piping; Post-1978: 4% of offtake piping	1 leak allowed per observed side	5.0% of the offtake piping, excluding visible emissions from no more than three ovens which may be dampered off
	60% opacity limit	
Pushing/Traveling		
0.010 gr/dscf Batteries 1-3,19	0.01 gr/dscf	0.02 gr/dscf; 20% opacity limit on pushing, 10% opacity limit on transport during pushing operation
0.040 lbs/ton of coke Batteries 13-15,20,B	0.02 pounds per ton of coke produced	
10% opacity on transport, 20% opacity on pushing	10% opacity limit	
Combustion Stacks		
Pre-1978: 0.030gr/dscf; Post-1978: 0.015 gr/dscf	0.01 gr/dscf	0.04 gr/dscf
Coke Oven Gas		
Sulfur compounds expressed as equivalent H2S with limit of 35 gr/100 dscf	Sulfur compounds measured as all sulfur compounds, expressed as H2S with limit of 35 gr/100 dscf	Sulfur compounds expressed as equivalent H2S with limit of 50 gr/100 dscf
Soaking		
20% opacity with 2-minute exclusion after standpipe cap is opened	No visible emissions after 2-minute exclusion period	

United States Steel Corporation

Comparison of Article XXI Regulations to Subpart LL

ACHD Current Article XXI	ACHD Proposed Article XXI	Federal - NESHAP Subpart L
Charging		
Pre-1978: 75 seconds during 4 consecutive charges; Post-1978: 55 seconds during 5 consecutive charges	Ten (10) seconds per charge (no rolling average)	12 seconds of visible emissions per charge, using 30-day rolling average
Doors		
Pre-1978: 10% of door areas; Post-1978: 5% of door areas; Batteries 1-3,19: 8% of door areas	1 leak allowed per observed side	3.3% leaking coke oven doors - 30 run rolling average
40% opacity limit for 15 minutes or longer after the last charge	30% opacity limit	
Charging Ports		
Pre-1978: 2% of the charging ports; Post 1978 - 1% of the charging ports	No visible emissions	0.4% leaking port lids - 30 run rolling average
Offtakes		
Pre-1978: 5% of offtake piping; Post-1978: 4% of offtake piping	1 leak allowed per observed side	2.5% leaking offtake system - 30 run rolling average
	60% opacity limit	

United States Steel Corporation

Comparison of Article XXI Regulations to Subpart CCCCC

ACHD Current Article XXI	ACHD Proposed Article XXI	Federal - MACT Subpart CCCCC
Pushing/Traveling		
0.010 gr/dscf Batteries 1-3,19	0.01 gr/dscf	0.020 lb/ton of coke if moveable hood vented to stationary control device; 0.01 gr/dscf if cokeside shed is used to capture emissions; 0.04 lb/ton of coke if mobile control device that captures emissions during travel is used
0.040 lbs/ton of coke Batteries 13-15,20,B	0.02 pounds per ton of coke produced	
10% opacity on transport, 20% opacity on pushing	10% opacity limit	
Combustion Stacks		
Pre-1978: 0.030gr/dscf; Post-1978: 0.015 gr/dscf	0.01 gr/dscf	Daily average of 15% opacity for normal coking cycle; daily average of 20% opacity for extended coking
Coke Oven Gas		
Sulfur compounds expressed as equivalent H2S with limit of 35 gr/100 dscf	Sulfur compounds measured as all sulfur compounds, expressed as H2S with limit of 35 gr/100 dscf	
Soaking		
20% opacity with 2-minute exclusion after standpipe cap is opened	No visible emissions after 2-minute exclusion period	

Technology review of Article XXI coke oven revisions

- To date, U. S. Steel has not identified any other by-product coke battery that can continuously achieve compliance with the current Article XXI standards let alone the proposed Article XXI standards.

- U. S. Steel is working with Thyssen Krupp Industrial Solutions (TKIS).
  - TKIS is a world leader in coke oven battery operations and technology
  - TKIS is reviewing the proposed coke oven regulations to see if any battery on a world-wide scale is capable of meeting the standards on a continuous basis.

Source Testing Manual (STM)

- Has ACHD performed their compliance analysis based on the Proposed STM or the Current STM?
  - It has been difficult for USS to determine compliance because we are unsure which Source Testing Manual to compare the proposed regulation changes to.

- <u>Some of the concerns with Proposed STM vs. Current STM</u>
  - Doors - no reference to viewing the emissions at the top of the door
  - Doors – proposed STM does not subtract 2 doors in calculation
  - Pushing – currently reading pushes from the top of the battery being pushed. Neither current nor proposed state this.
  - How is travel read from the top of the battery being pushed?
  - Not clear when a "push" starts in proposed STM
  - How are two sides of the battery read during a push?

H2S and Odor Complaints

- No empirical data/study regarding odor complaints
  - No nexus established
- ACHD has not provided empirical data or studies on how the new rule would measurably improve ambient air quality or reduce odor or H2S.
- After the shutdown of Shenango, there is no appreciable difference in H2S concentrations at the nearby Avalon monitor.

H2S and Odor Complaints

- Of 66 complaints listed in ACHD's brief in opposition to the petition for stay, for the hour of the complaint, none exceeded the hourly 0.1 ppm H2S standard at the Liberty monitor.

- Reviewing the Smell Pittsburgh app data, odor complaints have been recorded throughout Allegheny County with no statistical correlation between quantity of complaints and location.

Summary

- U. S. Steel has a history of working with ACHD to develop and implement plans necessary to improve air quality. But U. S. Steel has concerns with ACHD's proposed regulation.
  - **No clear or consistent explanation of the objectives for the individual requirements contained in the proposed regulation.**
  - **No demonstration of the anticipated ambient impacts from the individual requirements contained in the proposed regulation.**
  - **No evidence that battery technology exists to continuously comply with the proposed regulations.**
  - **No finding by ACHD that implementation of the approved U. S. Steel compliance plan will not address current air quality concerns.**
  - **Historical compliance rate data used by ACHD to justify the proposed standards is flawed due to inconsistencies implementing the Source Testing Manual**

Summary

- Proposal:
  - Defer consideration of the revised coke oven standards until completion of the approved U. S. Steel's battery assessment and associated plan.
  - If at that time, the ACHD determines that existing ambient standards or other regulatory requirements are not being met, develop a plan that is specifically designed to address the issue.

U. S. Steel is committed to improving the environment using sound science and solutions which are technologically and economically feasible.

SUBJECT: U.S. Steel Clairton Works
Title V Operating Permit # 0052
Quarterly Report
January 1 through March 31, 2017

Dear Mr. DeLuca:

This submittal satisfies the semi-annual reporting requirement of Title V Operating Permit No. 0052, Paragraph III.15 for the period of January 1 through March 31, 2017.

On behalf of U.S. Steel Clairton Works, I certify that I have personally examined and am familiar with the information contained in this report. The information contained in this report is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete.

If you have any questions regarding this submittal, please direct them to Jonelle S. Scheetz at 412-233-1015 or jsscheetz@uss.com.

Sincerely,

Michael S. Rhoads
Plant Manager

Consent Judgment signed March 24, 2016 - Batteries 1, 2, 3, 13, 14, 15, 19, 20, B, and C

Please accept this submittal as the Quarterly Report for United States Steel, Clairton Coke Works for the period of January 1 through March 31, 2017 according to the reporting requirements of the Consent Judgment signed March 24, 2016. A check in the amount of $34,000 for 1st Quarter 2017 stipulated penalties is attached.

The list of clock hours during for the period of January 1 through March 31, 2017 for which compliance was not achieved for Article XXI opacity limits on Batteries 1, 2, 3, 13, 14, 15, 19, 20, B, and C combustion stack as measured by the continuous opacity monitor (COM) per Paragraph V.A along with the date, time, root cause and last oven charged for each exceedance are listed in the attached Appendices.

The deviations for the period of January 1 through March 31, 2017 for which compliance was not achieved for Article XXI §2105.21(e)(4) and (e)(5) limits on Batteries 1, 2, 3, 13, 14, 15, 19, 20, B, and C per Paragraph V.A. are listed in the attached Appendices.

The deviations for the period of January 1 through March 31, 2017 for which compliance was not achieved for Article XXI §2105.21(i) limits on Batteries 1, 2, and 3 per Paragraph V.A. are listed in the attached Appendices. Soaking observations could not be performed during daylight hours on the following dates due to a battery wide outage on 2/20/17.

There were no instances of deviations with the minimum coking time restriction on Batteries 1, 2 or 3

Permit Section V.A – Batteries 1, 2, and 3

Permit Requirement V.A.4 – Record Keeping Requirements

Out-of-control periods per permit requirement V.4.c and §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

Permit Requirement V.A.5.m and n – §63.7341(c) and (d) - Quarterly Stack Compliance Report

Out-of-control periods per §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

During the period stated above there were no start-up, shutdown, malfunctions or deviations that required the implementation of §63.10(d)(5)(i) or (ii) or which caused or may have caused an emission limit exceedance of §63.7296(a).

Permit Section V.C – Batteries 13, 14, and 15

Permit Requirement V.C.4 – Record Keeping Requirements Batteries 13, 14, and 15

Out-of-control periods per the above permit requirement and §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

Permit Requirement V.C.5.m, n, and o – §63.7341(a, b and c)- Quarterly Stack Compliance Report

Out-of-control periods per §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

During the period stated above there were no start-up, shutdown, malfunctions or deviations that required the implementation of §63.10(d)(5)(i) or (ii) or which caused or may have caused an emission limit exceedance of §63.7296(a).

Permit Section V.E – 19 and 20 Batteries

Permit Requirement V.E.4 – Record Keeping Requirements

Out-of-control periods per permit requirement V.4.c and §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

Permit Requirement V.E.5.p and q – §63.7341(c) and (d) - Quarterly Stack Compliance Report

Out-of-control periods per §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

During the period stated above there were no start-up, shutdown, malfunctions or deviations that required the implementation of §63.10(d)(5)(i) or (ii) or which caused or may have caused an emission limit exceedance of §63.7296(a).

Permit Section V.G – B Battery

Permit Requirement V.G.4 – Record Keeping Requirements

Out-of-control periods per permit requirement V.4.c and §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

Permit Requirement V.G.5.n and o– §63.7341(c) and (d) - Quarterly Stack Compliance Report

Out-of-control periods per §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

During the period stated above there were no start-up, shutdown, malfunctions or deviations that required the implementation of §63.10(d)(5)(i) or (ii) or which caused or may have caused an emission limit exceedance of §63.7296(a).

INSPECT DATE	FACILITY	EVENT DESCRIPTION	DURATION (hours)	% OPERATING TIME	ROOT CAUSE / CA RESPONSE	ACTION DESCRIPTION
Jan 1, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/1/2017 8:24:02 AM to 1/1/2017 8:30:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
Jan 2, 2017 12:24:02 AM	BATTERY 1	Missing Data from 1/2/2017 12:24:02 AM to 1/2/2017 12:30:02 AM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Jan 3, 2017 4:24:02 PM	BATTERY 1	Missing Data from 1/3/2017 4:24:02 PM to 1/3/2017 4:30:02 PM	0.1		Communication Error	Missing one ten second reading.
Jan 4, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/4/2017 8:24:02 AM to 1/4/2017 8:36:02 AM	0.2		Communication Error	All data present, did not calculate raw average data.
Jan 6, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/6/2017 8:24:02 AM to 1/6/2017 8:30:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
Jan 6, 2017 4:24:02 PM	BATTERY 1	Missing Data from 1/6/2017 4:24:02 PM to 1/6/2017 4:30:02 PM	0.1		All Data Good	All data present didnt calculate raw 6 min average.
Jan 7, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/7/2017 8:24:02 AM to 1/7/2017 8:30:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
Jan 8, 2017 12:24:02 AM	BATTERY 1	Missing Data from 1/8/2017 12:24:02 AM to 1/8/2017 12:30:02 AM	0.1		Communication Error	Missing one ten second reading.
Jan 9, 2017 4:24:02 PM	BATTERY 1	Missing Data from 1/9/2017 4:24:02 PM to 1/9/2017 4:30:02 PM	0.1		Communication Error	Missing one ten second reading.
Jan 10, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/10/2017 8:24:02 AM to 1/10/2017 8:30:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
Jan 12, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/12/2017 8:24:02 AM to 1/12/2017 8:30:02 AM	0.1		Communication Error	Missing one ten second reading.
Jan 13, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/13/2017 8:24:02 AM to 1/13/2017 8:36:02 AM	0.2		All Data Good	All data present, didnt calculate raw 6 min average.
Jan 15, 2017 12:24:02 AM	BATTERY 1	Missing Data from 1/15/2017 12:24:02 AM to 1/15/2017 12:30:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
Jan 15, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/15/2017 8:24:02 AM to 1/15/2017 8:30:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
Jan 16, 2017 12:24:02 AM	BATTERY 1	Missing Data from 1/16/2017 12:24:02 AM to 1/16/2017 12:30:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
Jan 16, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/16/2017 8:24:02 AM to 1/16/2017 8:36:02 AM	0.2		Communication Error	All data present, did not calculate raw average data.
Jan 17, 2017 4:24:02 PM	BATTERY 1	Missing Data from 1/17/2017 4:24:02 PM to 1/17/2017 4:30:02 PM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Jan 18, 2017 12:24:02 AM	BATTERY 1	Missing Data from 1/18/2017 12:24:02 AM to 1/18/2017 12:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Jan 20, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/20/2017 8:24:02 AM to 1/20/2017 8:30:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
Jan 20, 2017 4:24:02 PM	BATTERY 1	Missing Data from 1/20/2017 4:24:02 PM to 1/20/2017 4:30:02 PM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Jan 21, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/21/2017 8:24:02 AM to 1/21/2017 8:30:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
Jan 23, 2017 12:24:02 AM	BATTERY 1	Missing Data from 1/23/2017 12:24:02 AM to 1/23/2017 12:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Jan 23, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/23/2017 8:24:02 AM to 1/23/2017 8:30:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Jan 24, 2017 12:24:02 AM	BATTERY 1	Missing Data from 1/24/2017 12:24:02 AM to 1/24/2017 12:30:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING

Jan 24, 2017 9:18:02 AM	BATTERY 1	Missing Data from 1/24/2017 9:18:02 AM to 1/24/2017 10:48:02 AM	1.5		Communication Error	MISSING READINGS FROM 9:18 TO 10:48 REASON UNKNOWN
Jan 24, 2017 4:24:02 PM	BATTERY 1	Missing Data from 1/24/2017 4:24:02 PM to 1/24/2017 4:36:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Jan 25, 2017 1:12:02 PM	BATTERY 1	Missing Data from 1/25/2017 1:12:02 PM to 1/25/2017 1:42:02 PM	0.5		Quarterly Audit	1ST QUARTER FILTER AUDIT WAS PERFORMED
Jan 25, 2017 4:24:02 PM	BATTERY 1	Missing Data from 1/25/2017 4:24:02 PM to 1/25/2017 4:30:02 PM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Jan 26, 2017 12:24:02 AM	BATTERY 1	Missing Data from 1/26/2017 12:24:02 AM to 1/26/2017 12:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Jan 27, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/27/2017 8:24:02 AM to 1/27/2017 8:30:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
Jan 28, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/28/2017 8:24:02 AM to 1/28/2017 8:30:02 AM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Jan 28, 2017 4:24:02 PM	BATTERY 1	Missing Data from 1/28/2017 4:24:02 PM to 1/28/2017 4:30:02 PM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
Jan 29, 2017 8:24:02 AM	BATTERY 1	Missing Data from 1/29/2017 8:24:02 AM to 1/29/2017 8:30:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Jan 31, 2017 12:12:02 AM	BATTERY 1	Missing Data from 1/31/2017 12:12:02 AM to 1/31/2017 12:30:02 AM	0.3		Power Failure	MISSING MULTIPLE TEN SECOND READINGS
Feb 1, 2017 12:24:02 AM	BATTERY 1	Missing Data from 2/1/2017 12:24:02 AM to 2/1/2017 12:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Feb 1, 2017 8:24:02 AM	BATTERY 1	Missing Data from 2/1/2017 8:24:02 AM to 2/1/2017 8:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Feb 4, 2017 8:24:02 AM	BATTERY 1	Missing Data from 2/4/2017 8:24:02 AM to 2/4/2017 8:30:02 AM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Feb 4, 2017 4:24:02 PM	BATTERY 1	Missing Data from 2/4/2017 4:24:02 PM to 2/4/2017 4:30:02 PM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
Feb 6, 2017 10:12:02 AM	BATTERY 1	Missing Data from 2/6/2017 10:12:02 AM to 2/6/2017 10:24:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACKPOLL
Feb 6, 2017 10:30:02 AM	BATTERY 1	Missing Data from 2/6/2017 10:30:02 AM to 2/6/2017 10:36:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACKPOLL
Feb 6, 2017 4:24:02 PM	BATTERY 1	Missing Data from 2/6/2017 4:24:02 PM to 2/6/2017 4:30:02 PM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Feb 7, 2017 12:24:02 AM	BATTERY 1	Missing Data from 2/7/2017 12:24:02 AM to 2/7/2017 12:30:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Feb 7, 2017 8:24:02 AM	BATTERY 1	Missing Data from 2/7/2017 8:24:02 AM to 2/7/2017 8:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Feb 8, 2017 4:24:02 PM	BATTERY 1	Missing Data from 2/8/2017 4:24:02 PM to 2/8/2017 4:30:02 PM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Feb 8, 2017 5:30:02 PM	BATTERY 1	Missing Data from 2/8/2017 5:30:02 PM to 2/8/2017 6:42:02 PM	1.2		Communication Error	DID NOT CALCULATE RAW READING
Feb 9, 2017 8:24:02 AM	BATTERY 1	Missing Data from 2/9/2017 8:24:02 AM to 2/9/2017 8:30:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
Feb 9, 2017 4:24:02 PM	BATTERY 1	Missing Data from 2/9/2017 4:24:02 PM to 2/9/2017 4:30:02 PM	0.1		Communication Error	Missing one ten second reading.
Feb 11, 2017 4:24:02 PM	BATTERY 1	Missing Data from 2/11/2017 4:24:02 PM to 2/11/2017 4:30:02 PM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Feb 12, 2017 8:24:02 AM	BATTERY 1	Missing Data from 2/12/2017 8:24:02 AM to 2/12/2017 8:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING

Feb 14, 2017 8:24:02 AM	BATTERY 1	Missing Data from 2/14/2017 8:24:02 AM to 2/14/2017 8:30:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Feb 15, 2017 8:24:02 AM	BATTERY 1	Missing Data from 2/15/2017 8:24:02 AM to 2/15/2017 8:30:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Feb 16, 2017 4:24:02 PM	BATTERY 1	Missing Data from 2/16/2017 4:24:02 PM to 2/16/2017 4:30:02 PM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Feb 17, 2017 12:24:02 AM	BATTERY 1	Missing Data from 2/17/2017 12:24:02 AM to 2/17/2017 12:36:02 AM	0.2		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min averages.
Feb 18, 2017 8:24:02 AM	BATTERY 1	Missing Data from 2/18/2017 8:24:02 AM to 2/18/2017 8:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Feb 19, 2017 4:24:02 PM	BATTERY 1	Missing Data from 2/19/2017 4:24:02 PM to 2/19/2017 4:30:02 PM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Feb 20, 2017 8:24:02 AM	BATTERY 1	Missing Data from 2/20/2017 8:24:02 AM to 2/20/2017 8:30:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Feb 22, 2017 8:24:02 AM	BATTERY 1	Missing Data from 2/22/2017 8:24:02 AM to 2/22/2017 8:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Feb 22, 2017 4:24:02 PM	BATTERY 1	Missing Data from 2/22/2017 4:24:02 PM to 2/22/2017 4:30:02 PM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Feb 23, 2017 8:24:02 AM	BATTERY 1	Missing Data from 2/23/2017 8:24:02 AM to 2/23/2017 8:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Feb 25, 2017 8:24:02 AM	BATTERY 1	Missing Data from 2/25/2017 8:24:02 AM to 2/25/2017 8:30:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Feb 26, 2017 4:24:02 PM	BATTERY 1	Missing Data from 2/26/2017 4:24:02 PM to 2/26/2017 4:30:02 PM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Feb 27, 2017 4:24:02 PM	BATTERY 1	Missing Data from 2/27/2017 4:24:02 PM to 2/27/2017 4:30:02 PM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Mar 2, 2017 4:24:02 PM	BATTERY 1	Missing Data from 3/2/2017 4:24:02 PM to 3/2/2017 4:36:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Mar 2, 2017 5:36:02 PM	BATTERY 1	Missing Data from 3/2/2017 5:36:02 PM to 3/2/2017 6:18:02 PM	0.7		Communication Error	DID NOT CALCULATE RAW READING
Mar 2, 2017 11:54:02 PM	BATTERY 1	Missing Data from 3/2/2017 11:54:02 PM to 3/3/2017 12:00:02 AM	0.1		Communication Error	MISSING 35 TEN SECOND READINGS DUE TO I HISTORIAN
Mar 3, 2017 4:24:02 PM	BATTERY 1	Missing Data from 3/3/2017 4:24:02 PM to 3/3/2017 4:30:02 PM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Mar 5, 2017 8:24:02 AM	BATTERY 1	Missing Data from 3/5/2017 8:24:02 AM to 3/5/2017 8:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Mar 6, 2017 12:24:02 AM	BATTERY 1	Missing Data from 3/6/2017 12:24:02 AM to 3/6/2017 12:30:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Mar 6, 2017 12:24:02 AM	BATTERY 1	Missing Data from 3/6/2017 12:24:02 AM to 3/6/2017 12:30:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Mar 6, 2017 8:24:02 AM	BATTERY 1	Missing Data from 3/6/2017 8:24:02 AM to 3/6/2017 8:36:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Mar 6, 2017 8:24:02 AM	BATTERY 1	Missing Data from 3/6/2017 8:24:02 AM to 3/6/2017 8:36:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Mar 7, 2017 10:48:02 AM	BATTERY 1	Missing Data from 3/7/2017 10:48:02 AM to 3/7/2017 11:18:02 AM	0.5		Communication Error	All data present, did not calculate raw average data.
Mar 10, 2017 8:24:02 AM	BATTERY 1	Missing Data from 3/10/2017 8:24:02 AM to 3/10/2017 8:30:02 AM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Mar 12, 2017 1:54:02 AM	BATTERY 1	Missing Data from 3/12/2017 1:54:02 AM to 3/12/2017 3:00:02 AM	1.1		Communication Error	TIME REVERTED BACK TO 01:00 DUE TO DAYLIGHT SAVINGS TIME

Mar 12, 2017 5:24:02 PM	BATTERY 1	Missing Data from 3/12/2017 5:24:02 PM to 3/12/2017 5:30:02 PM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Mar 13, 2017 12:30:02 AM	BATTERY 1	Missing Data from 3/13/2017 12:30:02 AM to 3/13/2017 12:36:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Mar 13, 2017 12:00:03 PM	BATTERY 1	Missing Data from 3/13/2017 12:00:03 PM to 3/13/2017 12:12:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACKPOLL FROM
Mar 15, 2017 8:24:02 AM	BATTERY 1	Missing Data from 3/15/2017 8:24:02 AM to 3/15/2017 8:30:02 AM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Mar 15, 2017 4:24:02 PM	BATTERY 1	Missing Data from 3/15/2017 4:24:02 PM to 3/15/2017 4:30:02 PM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
Mar 16, 2017 4:24:02 PM	BATTERY 1	Missing Data from 3/16/2017 4:24:02 PM to 3/16/2017 4:30:02 PM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Mar 19, 2017 8:24:02 AM	BATTERY 1	Missing Data from 3/19/2017 8:24:02 AM to 3/19/2017 8:36:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Mar 20, 2017 4:24:02 PM	BATTERY 1	Missing Data from 3/20/2017 4:24:02 PM to 3/20/2017 4:36:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Mar 21, 2017 4:24:02 PM	BATTERY 1	Missing Data from 3/21/2017 4:24:02 PM to 3/21/2017 4:30:02 PM	0.1		Communication Error	Missing one ten second reading.
Mar 22, 2017 8:24:02 AM	BATTERY 1	Missing Data from 3/22/2017 8:24:02 AM to 3/22/2017 8:30:02 AM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Mar 23, 2017 8:24:02 AM	BATTERY 1	Missing Data from 3/23/2017 8:24:02 AM to 3/23/2017 8:36:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Mar 23, 2017 4:24:02 PM	BATTERY 1	Missing Data from 3/23/2017 4:24:02 PM to 3/23/2017 4:30:02 PM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Mar 24, 2017 12:24:02 AM	BATTERY 1	Missing Data from 3/24/2017 12:24:02 AM to 3/24/2017 12:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Mar 24, 2017 4:24:02 PM	BATTERY 1	Missing Data from 3/24/2017 4:24:02 PM to 3/24/2017 4:30:02 PM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Mar 26, 2017 8:24:02 AM	BATTERY 1	Missing Data from 3/26/2017 8:24:02 AM to 3/26/2017 8:30:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Mar 27, 2017 12:12:02 AM	BATTERY 1	Missing Data from 3/27/2017 12:12:02 AM to 3/27/2017 1:30:02 AM	1.3		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM
Mar 27, 2017 1:36:02 AM	BATTERY 1	Missing Data from 3/27/2017 1:36:02 AM to 3/27/2017 1:48:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM
Mar 27, 2017 2:12:02 AM	BATTERY 1	Missing Data from 3/27/2017 2:12:02 AM to 3/27/2017 2:24:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM
Mar 27, 2017 2:30:02 AM	BATTERY 1	Missing Data from 3/27/2017 2:30:02 AM to 3/27/2017 2:42:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM
Mar 27, 2017 2:48:02 AM	BATTERY 1	Missing Data from 3/27/2017 2:48:02 AM to 3/27/2017 2:54:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM
Mar 27, 2017 3:00:03 AM	BATTERY 1	Missing Data from 3/27/2017 3:00:03 AM to 3/27/2017 3:18:02 AM	0.3		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM
Mar 27, 2017 3:24:02 AM	BATTERY 1	Missing Data from 3/27/2017 3:24:02 AM to 3/27/2017 3:36:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 3:42:02 AM	BATTERY 1	Missing Data from 3/27/2017 3:42:02 AM to 3/27/2017 4:00:02 AM	0.3		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM

Jan 24, 2017 9:18:02 AM	BATTERY 2	Missing Data from 1/24/2017 9:18:02 AM to 1/24/2017 10:48:02 AM	1.5		Communication Error	MISSING READINGS FROM 9:18 TO 10:48 REASON UNKNOWN
Jan 25, 2017 1:42:02 PM	BATTERY 2	Missing Data from 1/25/2017 1:42:02 PM to 1/25/2017 2:12:02 PM	0.5		Quarterly Audit	1ST QUARTER FILTER AUDIT WAS PERFORMED
Jan 26, 2017 12:24:02 AM	BATTERY 2	Missing Data from 1/26/2017 12:24:02 AM to 1/26/2017 12:36:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Jan 28, 2017 1:54:02 AM	BATTERY 2	Missing Data from 1/28/2017 1:54:02 AM to 1/28/2017 2:00:02 AM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Jan 29, 2017 4:24:02 PM	BATTERY 2	Missing Data from 1/29/2017 4:24:02 PM to 1/29/2017 4:36:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Jan 30, 2017 4:24:02 PM	BATTERY 2	Missing Data from 1/30/2017 4:24:02 PM to 1/30/2017 4:36:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Feb 3, 2017 4:24:02 PM	BATTERY 2	Missing Data from 2/3/2017 4:24:02 PM to 2/3/2017 4:36:02 PM	0.2		All Data Good	All data present, didnt calculate raw 6 min average.
Feb 5, 2017 4:24:02 PM	BATTERY 2	Missing Data from 2/5/2017 4:24:02 PM to 2/5/2017 4:36:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Feb 8, 2017 4:24:02 PM	BATTERY 2	Missing Data from 2/8/2017 4:24:02 PM to 2/8/2017 4:36:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Feb 8, 2017 5:30:02 PM	BATTERY 2	Missing Data from 2/8/2017 5:30:02 PM to 2/8/2017 6:36:02 PM	1.1		Communication Error	DID NOT CALCULATE RAW READING
Feb 11, 2017 8:24:02 AM	BATTERY 2	Missing Data from 2/11/2017 8:24:02 AM to 2/11/2017 8:36:02 AM	0.2		All Data Good	All data present, didnt calculate raw 6 min average.
Feb 12, 2017 12:12:02 AM	BATTERY 2	Missing Data from 2/12/2017 12:12:02 AM to 2/12/2017 12:30:02 AM	0.3		Communication Error	Missing 7 ten second readings, didnt calculate raw 6 min average.
Feb 14, 2017 4:24:02 PM	BATTERY 2	Missing Data from 2/14/2017 4:24:02 PM to 2/14/2017 4:36:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING

Feb 15, 2017 4:24:02 PM	BATTERY 2	Missing Data from 2/15/2017 4:24:02 PM to 2/15/2017 4:36:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Feb 19, 2017 12:48:02 AM	BATTERY 2	Missing Data from 2/19/2017 12:48:02 AM to 2/19/2017 12:54:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Feb 20, 2017 4:24:02 PM	BATTERY 2	Missing Data from 2/20/2017 4:24:02 PM to 2/20/2017 4:36:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Feb 25, 2017 4:24:02 PM	BATTERY 2	Missing Data from 2/25/2017 4:24:02 PM to 2/25/2017 4:36:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Feb 28, 2017 12:24:02 AM	BATTERY 2	Missing Data from 2/28/2017 12:24:02 AM to 2/28/2017 12:36:02 AM	0.2		Communication Error	All data present, did not calculate raw average data.
Mar 2, 2017 5:48:02 PM	BATTERY 2	Missing Data from 3/2/2017 5:48:02 PM to 3/2/2017 6:18:02 PM	0.5		Communication Error	MISSING 35 TEN SECOND READINGS DUE TO I HISTORIAN
Mar 2, 2017 11:54:02 PM	BATTERY 2	Missing Data from 3/2/2017 11:54:02 PM to 3/3/2017 12:00:02 AM	0.1		Communication Error	MISSING 35 TEN SECOND READINGS DUE TO I HISTORIAN
Mar 7, 2017 10:48:02 AM	BATTERY 2	Missing Data from 3/7/2017 10:48:02 AM to 3/7/2017 11:18:02 AM	0.5		Communication Error	All data present, didnt calculate raw 6 min average.
Mar 10, 2017 12:24:02 AM	BATTERY 2	Missing Data from 3/10/2017 12:24:02 AM to 3/10/2017 12:36:02 AM	0.2		All Data Good	All data present, didnt calculate raw 6 min average.
Mar 12, 2017 12:24:02 AM	BATTERY 2	Missing Data from 3/12/2017 12:24:02 AM to 3/12/2017 12:36:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Mar 12, 2017 1:54:02 AM	BATTERY 2	Missing Data from 3/12/2017 1:54:02 AM to 3/12/2017 3:00:02 AM	1.1		Communication Error	TIME REVERTED BACK TO 01:00 DUE TO DAYLIGHT SAVINGS TIME
Mar 13, 2017 12:00:03 PM	BATTERY 2	Missing Data from 3/13/2017 12:00:03 PM to 3/13/2017 12:12:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACKPOLL FROM
Mar 15, 2017 4:24:02 PM	BATTERY 2	Missing Data from 3/15/2017 4:24:02 PM to 3/15/2017 4:36:02 PM	0.2		All Data Good	All data present, didnt calculate raw 6 min average.
Mar 21, 2017 4:24:02 PM	BATTERY 2	Missing Data from 3/21/2017 4:24:02 PM to 3/21/2017 4:36:02 PM	0.2		Communication Error	All data present, did not calculate raw average data.
Mar 24, 2017 12:24:02 AM	BATTERY 2	Missing Data from 3/24/2017 12:24:02 AM to 3/24/2017 12:36:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING
Mar 27, 2017 12:12:02 AM	BATTERY 2	Missing Data from 3/27/2017 12:12:02 AM to 3/27/2017 1:12:02 AM	1.0		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 1:18:02 AM	BATTERY 2	Missing Data from 3/27/2017 1:18:02 AM to 3/27/2017 1:30:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 1:36:02 AM	BATTERY 2	Missing Data from 3/27/2017 1:36:02 AM to 3/27/2017 1:48:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 2:12:02 AM	BATTERY 2	Missing Data from 3/27/2017 2:12:02 AM to 3/27/2017 2:24:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 2:30:02 AM	BATTERY 2	Missing Data from 3/27/2017 2:30:02 AM to 3/27/2017 2:42:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 2:48:02 AM	BATTERY 2	Missing Data from 3/27/2017 2:48:02 AM to 3/27/2017 2:54:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 3:00:03 AM	BATTERY 2	Missing Data from 3/27/2017 3:00:03 AM to 3/27/2017 3:18:02 AM	0.3		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 3:24:02 AM	BATTERY 2	Missing Data from 3/27/2017 3:24:02 AM to 3/27/2017 3:36:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 3:42:02 AM	BATTERY 2	Missing Data from 3/27/2017 3:42:02 AM to 3/27/2017 4:00:02 AM	0.3		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM
Mar 27, 2017 4:06:02 AM	BATTERY 2	Missing Data from 3/27/2017 4:06:02 AM to 3/27/2017 4:18:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM

Mar 27, 2017 4:24:02 AM	BATTERY 2	Missing Data from 3/27/2017 4:24:02 AM to 3/27/2017 4:36:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM
Mar 27, 2017 4:42:02 AM	BATTERY 2	Missing Data from 3/27/2017 4:42:02 AM to 3/27/2017 4:48:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM
Mar 27, 2017 5:18:02 AM	BATTERY 2	Missing Data from 3/27/2017 5:18:02 AM to 3/27/2017 5:48:02 AM	0.5		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM
Mar 27, 2017 6:18:02 AM	BATTERY 2	Missing Data from 3/27/2017 6:18:02 AM to 3/27/2017 6:30:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM
Mar 27, 2017 5:24:02 PM	BATTERY 2	Missing Data from 3/27/2017 5:24:02 PM to 3/27/2017 6:18:02 PM	0.9		Communication Error	DID NOT CALCULATE RAW READING FROM BACK POLL FROM

INSPECT DATE	FACILITY	EVENT DESCRIPTION	DURATION (hours)	% OPERATING TIME	ROOT CAUSE / CA RESPONSE	ACTION DESCRIPTION
Jan 8, 2017 2:06:02 AM	BATTERY 20	Missing Data from 1/8/2017 2:06:02 AM to 1/8/2017 2:12:02 AM	0.1		Communication Error	Missing one ten second reading.
Jan 19, 2017 10:00:03 AM	BATTERY 20	Missing Data from 1/19/2017 10:00:03 AM to 1/19/2017 10:42:02 AM	0.7		Quarterly Audit	1ST QUARTER FILTER AUDIT WAS PERFORMED
Jan 20, 2017 12:18:02 AM	BATTERY 20	Missing Data from 1/20/2017 12:18:02 AM to 1/20/2017 12:24:02 AM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Jan 22, 2017 2:00:03 AM	BATTERY 20	Missing Data from 1/22/2017 2:00:03 AM to 1/22/2017 2:06:02 AM	0.1		Communication Error	Missing 10 second data for 12 minutes, suspect ethernet issues.
Jan 26, 2017 2:06:02 AM	BATTERY 20	Missing Data from 1/26/2017 2:06:02 AM to 1/26/2017 2:12:02 AM	0.1		Communication Error	ONE EXTRA TEN SECOND READING IN 6 MINUTE BLOCK
Jan 28, 2017 1:12:02 AM	BATTERY 20	Missing Data from 1/28/2017 1:12:02 AM to 1/28/2017 1:18:02 AM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Jan 28, 2017 2:42:02 AM	BATTERY 20	Missing Data from 1/28/2017 2:42:02 AM to 1/28/2017 2:48:02 AM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
Jan 29, 2017 2:06:02 AM	BATTERY 20	Missing Data from 1/29/2017 2:06:02 AM to 1/29/2017 2:12:02 AM	0.1		Communication Error	One extra 10 second reading, didnt calculate raw 6 min average.
Feb 1, 2017 2:06:02 AM	BATTERY 20	Missing Data from 2/1/2017 2:06:02 AM to 2/1/2017 2:12:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING DUE TO ONE EXTRA TEN
Feb 2, 2017 2:06:02 AM	BATTERY 20	Missing Data from 2/2/2017 2:06:02 AM to 2/2/2017 2:12:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
Feb 4, 2017 2:06:02 AM	BATTERY 20	Missing Data from 2/4/2017 2:06:02 AM to 2/4/2017 2:12:02 AM	0.1		Communication Error	One extra 10 second reading, didnt calculate raw 6 min average.
Feb 6, 2017 2:06:02 AM	BATTERY 20	Missing Data from 2/6/2017 2:06:02 AM to 2/6/2017 2:12:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Feb 6, 2017 7:36:02 AM	BATTERY 20	Missing Data from 2/6/2017 7:36:02 AM to 2/6/2017 11:18:02 AM	3.7		Power Failure	MISSING DATA DUE TO OUTAGE ON 19 AND 20 BATTERIES
Feb 6, 2017 10:00:03 AM	BATTERY 20	Missing Data from 2/6/2017 10:00:03 AM to 2/6/2017 11:18:02 AM	1.3		Power Failure	MISSING DATA DUE TO OUTAGE ON 19 AND 20 BATTERIES
Feb 8, 2017 5:42:02 PM	BATTERY 20	Missing Data from 2/8/2017 5:42:02 PM to 2/8/2017 6:30:02 PM	0.8		Communication Error	MISSING 30 TEN SECOND READINGS
Feb 9, 2017 2:06:02 AM	BATTERY 20	Missing Data from 2/9/2017 2:06:02 AM to 2/9/2017 2:12:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING HAD 1 EXTRA TEN SECOND
Feb 9, 2017 2:06:02 AM	BATTERY 20	Missing Data from 2/9/2017 2:06:02 AM to 2/9/2017 2:12:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING HAD 1 EXTRA TEN SECOND

Feb 19, 2017 12:54:02 AM	BATTERY 20	Missing Data from 2/19/2017 12:54:02 AM to 2/19/2017 1:00:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
Feb 23, 2017 2:06:02 AM	BATTERY 20	Missing Data from 2/23/2017 2:06:02 AM to 2/23/2017 2:12:02 AM	0.1		Communication Error	ONE EXTRA TEN SECOND READING
Feb 26, 2017 2:06:02 AM	BATTERY 20	Missing Data from 2/26/2017 2:06:02 AM to 2/26/2017 2:12:02 AM	0.1		Communication Error	ONE EXTRA TEN SECOND READING
Mar 2, 2017 5:42:02 PM	BATTERY 20	Missing Data from 3/2/2017 5:42:02 PM to 3/2/2017 6:18:02 PM	0.6		Communication Error	MISSING MULTIPLE TEN SECOND READINGS DUE TO
Mar 2, 2017 11:54:02 PM	BATTERY 20	Missing Data from 3/2/2017 11:54:02 PM to 3/3/2017 12:00:02 AM	0.1		Communication Error	MISSING 35 TEN SECOND READINGS DUE TO I HISTORIAN
Mar 7, 2017 2:06:02 AM	BATTERY 20	Missing Data from 3/7/2017 2:06:02 AM to 3/7/2017 2:12:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING DUE TO ONE EXTRA TEN
Mar 7, 2017 2:06:02 AM	BATTERY 20	Missing Data from 3/7/2017 2:06:02 AM to 3/7/2017 2:12:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING DUE TO ONE EXTRA TEN
Mar 7, 2017 2:06:02 AM	BATTERY 20	Missing Data from 3/7/2017 2:06:02 AM to 3/7/2017 2:12:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING DUE TO ONE EXTRA TEN
Mar 7, 2017 2:06:02 AM	BATTERY 20	Missing Data from 3/7/2017 2:06:02 AM to 3/7/2017 2:12:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING DUE TO ONE EXTRA TEN
Mar 7, 2017 2:06:02 AM	BATTERY 20	Missing Data from 3/7/2017 2:06:02 AM to 3/7/2017 2:12:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING DUE TO ONE EXTRA TEN
Mar 7, 2017 2:06:02 AM	BATTERY 20	Missing Data from 3/7/2017 2:06:02 AM to 3/7/2017 2:12:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING DUE TO ONE EXTRA TEN
Mar 7, 2017 10:48:02 AM	BATTERY 20	Missing Data from 3/7/2017 10:48:02 AM to 3/7/2017 11:00:02 AM	0.2		Communication Error	All data present, didnt calculate raw 6 min average.
Mar 7, 2017 11:06:02 AM	BATTERY 20	Missing Data from 3/7/2017 11:06:02 AM to 3/7/2017 11:18:02 AM	0.2		Communication Error	All data present, didnt calculate raw 6 min average.
Mar 7, 2017 1:00:03 PM	BATTERY 20	Missing Data from 3/7/2017 1:00:03 PM to 3/7/2017 1:12:02 PM	0.2		Communication Error	All data present, did not calculate raw average data.
Mar 12, 2017 1:54:02 AM	BATTERY 20	Missing Data from 3/12/2017 1:54:02 AM to 3/12/2017 2:54:02 AM	1.0		Communication Error	TIME REVERTED BACK TO 01:00 DUE TO DAYLIGHT SAVINGS TIME
Mar 13, 2017 1:06:02 AM	BATTERY 20	Missing Data from 3/13/2017 1:06:02 AM to 3/13/2017 2:06:02 AM	1.0		Communication Error	MISSING MULTIPLE TEN SECOND READINGS
Mar 13, 2017 12:00:03 PM	BATTERY 20	Missing Data from 3/13/2017 12:00:03 PM to 3/13/2017 12:12:02 PM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACKPOLL FROM
Mar 13, 2017 12:30:02 PM	BATTERY 20	Missing Data from 3/13/2017 12:30:02 PM to 3/13/2017 12:36:02 PM	0.1		Communication Error	DID NOT CALCULTAE RAW READING DUE TO BACKPOLL FROM
Mar 22, 2017 1:12:02 AM	BATTERY 20	Missing Data from 3/22/2017 1:12:02 AM to 3/22/2017 1:42:02 AM	0.5		Power Failure	Power failures occured on 20 Batt stack yesterday morning. Monitor OK.
Mar 22, 2017 2:42:02 AM	BATTERY 20	Missing Data from 3/22/2017 2:42:02 AM to 3/22/2017 4:42:02 AM	2.0		Power Failure	Power failures occured on 20 Batt stack yesterday morning. Monitor OK.
Mar 22, 2017 2:42:02 AM	BATTERY 20	Missing Data from 3/22/2017 2:42:02 AM to 3/22/2017 4:42:02 AM	2.0		Power Failure	Power failures occured on 20 Batt stack yesterday morning. Monitor OK.
Mar 22, 2017 3:00:03 AM	BATTERY 20	Missing Data from 3/22/2017 3:00:03 AM to 3/22/2017 4:42:02 AM	1.7		Power Failure	Power failures occured on 20 Batt stack yesterday morning. Monitor OK.

Mar 22, 2017 4:00:03 AM	BATTERY 20	Missing Data from 3/22/2017 4:00:03 AM to 3/22/2017 4:42:02 AM	0.7		Power Failure	Power failures occured on 20 Batt stack yesterday morning. Monitor OK.
Mar 22, 2017 4:48:02 AM	BATTERY 20	Missing Data from 3/22/2017 4:48:02 AM to 3/22/2017 6:00:02 AM	1.2		Power Failure	Power failures occured on 20 Batt stack yesterday morning. Monitor OK.
Mar 22, 2017 4:48:02 AM	BATTERY 20	Missing Data from 3/22/2017 4:48:02 AM to 3/22/2017 6:00:02 AM	1.2		Power Failure	Power failures occured on 20 Batt stack yesterday morning. Monitor OK.
Mar 26, 2017 2:06:02 AM	BATTERY 20	Missing Data from 3/26/2017 2:06:02 AM to 3/26/2017 2:12:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING DUE TO ONE EXTRA TEN
Mar 27, 2017 12:12:02 AM	BATTERY 20	Missing Data from 3/27/2017 12:12:02 AM to 3/27/2017 1:12:02 AM	1.0		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 1:18:02 AM	BATTERY 20	Missing Data from 3/27/2017 1:18:02 AM to 3/27/2017 1:30:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 1:36:02 AM	BATTERY 20	Missing Data from 3/27/2017 1:36:02 AM to 3/27/2017 1:54:02 AM	0.3		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 2:00:03 AM	BATTERY 20	Missing Data from 3/27/2017 2:00:03 AM to 3/27/2017 2:06:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 2:12:02 AM	BATTERY 20	Missing Data from 3/27/2017 2:12:02 AM to 3/27/2017 2:42:02 AM	0.5		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 2:48:02 AM	BATTERY 20	Missing Data from 3/27/2017 2:48:02 AM to 3/27/2017 3:00:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 3:06:02 AM	BATTERY 20	Missing Data from 3/27/2017 3:06:02 AM to 3/27/2017 3:18:02 AM	0.2		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM
Mar 27, 2017 3:24:02 AM	BATTERY 20	Missing Data from 3/27/2017 3:24:02 AM to 3/27/2017 4:12:02 AM	0.8		Communication Error	DID NOT CALCULATE RAW READING DUE TO BACK POLL FROM

SUBJECT: U.S. Steel Clairton Works
Title V Operating Permit # 0052
Quarterly Report
January 1 through March 31, 2018

Dear Mr. DeLuca:

This submittal satisfies the semi-annual reporting requirement of Title V Operating Permit No. 0052, Paragraph III.15 for the period of January 1 through March 31, 2018.

On behalf of U.S. Steel Clairton Works, I certify that I have personally examined and am familiar with the information contained in this report. The information contained in this report is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete.

If you have any questions regarding this submittal, please direct them to Jonelle S. Scheetz at 412-233-1015 or jsscheetz@uss.com.

Sincerely,

Mark Jeffrey
Acting Plant Manager

2018 Quarter 1

Consent Judgment signed March 24, 2016 - Batteries 1, 2, 3, 13, 14, 15, 19, 20, B, and C

Please accept this submittal as the Quarterly Report for United States Steel, Clairton Coke Works for the period of January 1 through March 31, 2018 according to the reporting requirements of the Consent Judgment signed March 24, 2016. A check in the amount of $45,400 for 1st Quarter 2018 stipulated penalties is attached.

The list of clock hours during for the period of January 1 through March 31, 2018 for which compliance was not achieved for Article XXI opacity limits on Batteries 1, 2, 3, 13, 14, 15, 19, 20, and B combustion stacks as measured by the continuous opacity monitor (COM) per Paragraph V.A along with the date, time, root cause and last oven charged for each exceedance are listed in the attached Appendices.

The deviations for the period of January 1 through March 31, 2018 for which compliance was not achieved for Article XXI §2105.21(e)(4) and (e)(5) limits on Batteries 1, 2, 3, 13, 14, 15, 19, 20, and B per Paragraph V.A. are listed in the attached Appendices.

The deviations for the period of January 1 through March 31, 2018 for which compliance was not achieved for Article XXI §2105.21(i) limits on Batteries 1, 2, and 3 per Paragraph V.A. are listed in the attached Appendices. Soaking observations could not be performed during daylight hours on the following dates due to a battery wide outage on 3/19/18.

There were 5 instances of deviations with the minimum coking time restriction on Battery 2.

Permit Section V.A – Batteries 1, 2, and 3

Permit Requirement V.A.4 – Record Keeping Requirements

Out-of-control periods per permit requirement V.4.c and §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

Permit Requirement V.A.5.m and n – §63.7341(c) and (d) - Quarterly Stack Compliance Report

Out-of-control periods per §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

During the period stated above there were no start-up, shutdown, malfunctions or deviations that required the implementation of §63.10(d)(5)(i) or (ii) or which caused or may have caused an emission limit exceedance of §63.7296(a).

Permit Section V.C – Batteries 13, 14, and 15

Permit Requirement V.C.4 – Record Keeping Requirements Batteries 13, 14, and 15

Out-of-control periods per the above permit requirement and §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

Permit Requirement V.C.5.m, n, and o – §63.7341(a, b and c)- Quarterly Stack Compliance Report

Out-of-control periods per §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

During the period stated above there were no start-up, shutdown, malfunctions or deviations that required the implementation of §63.10(d)(5)(i) or (ii) or which caused or may have caused an emission limit exceedance of §63.7296(a).

Permit Section V.E – 19 and 20 Batteries

Permit Requirement V.E.4 – Record Keeping Requirements

Out-of-control periods per permit requirement V.4.c and §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

Permit Requirement V.E.5.p and q – §63.7341(c) and (d) - Quarterly Stack Compliance Report

Out-of-control periods per §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

During the period stated above there were no start-up, shutdown, malfunctions or deviations that required the implementation of §63.10(d)(5)(i) or (ii) or which caused or may have caused an emission limit exceedance of §63.7296(a).

Permit Section V.G – B Battery

Permit Requirement V.G.4 – Record Keeping Requirements

Out-of-control periods per permit requirement V.4.c and §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

Permit Requirement V.G.5.n and o– §63.7341(c) and (d) - Quarterly Stack Compliance Report

Out-of-control periods per §63.7341 (c)(6) and (8)(iii) and/ or inoperable periods per §63.7341 (8)(ii) for stack COM's are detailed in the attached table.

During the period stated above there were no start-up, shutdown, malfunctions or deviations that required the implementation of §63.10(d)(5)(i) or (ii) or which caused or may have caused an emission limit exceedance of §63.7296(a).

BATTERY 1	STACK MIA BRK	Missing Data from 1/1/2018 4:24:02 PM to 1/1/2018 4:30:02 PM	0.1		Communication Error	Missing 1 ten second reading. All other data present.
BATTERY 1	STACK MIA BRK	Missing Data from 1/10/2018 8:24:02 AM to 1/10/2018 8:36:02 AM	0.2		Communication Error	All data present, did not calculate raw average data.
BATTERY 1	STACK MIA BRK	Missing Data from 1/11/2018 8:24:02 AM to 1/11/2018 8:30:02 AM	0.1		Communication Error	Missing one ten second reading.
BATTERY 1	STACK MIA BRK	Missing Data from 1/14/2018 4:24:02 PM to 1/14/2018 4:30:02 PM	0.1		All Data Good	Did not calculate raw average. All data good
BATTERY 1	STACK MIA BRK	Missing Data from 1/15/2018 8:24:02 AM to 1/15/2018 8:30:02 AM	0.1		Communication Error	missing 1 teb second reading. All other data is present
BATTERY 1	STACK MIA BRK	Missing Data from 1/17/2018 4:24:02 PM to 1/17/2018 4:36:02 PM	0.2		Communication Error	Did not calculate raw average. All data present
BATTERY 1	STACK MIA BRK	Missing Data from 1/19/2018 8:24:02 AM to 1/19/2018 8:36:02 AM	0.2		All Data Good	Did not calculate raw average. All data present
BATTERY 1	STACK MIA BRK	Missing Data from 1/2/2018 8:24:02 AM to 1/2/2018 8:30:02 AM	0.1		All Data Good	Did not calculate raw average. All data present
BATTERY 1	STACK MIA BRK	Missing Data from 1/2/2018 9:06:02 PM to 1/2/2018 10:42:02 PM	1.6		Power Failure	Lost power from 2109 to 2236
BATTERY 1	STACK MIA BRK	Missing Data from 1/20/2018 12:24:02 AM to 1/20/2018 12:30:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY 1	STACK MIA BRK	Missing Data from 1/21/2018 8:12:02 PM to 1/21/2018 8:48:02 PM	0.6		Communication Error	Missing multiple ten second readings.
BATTERY 1	STACK MIA BRK	Missing Data from 1/22/2018 12:24:02 AM to 1/22/2018 12:30:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY 1	STACK MIA BRK	Missing Data from 1/22/2018 12:24:02 AM to 1/22/2018 12:30:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY 1	STACK MIA BRK	Missing Data from 1/22/2018 4:24:02 PM to 1/22/2018 4:36:02 PM	0.2		Communication Error	All data present, did not calculate raw average data.
BATTERY 1	STACK MIA BRK	Missing Data from 1/22/2018 8:24:02 AM to 1/22/2018 8:30:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY 1	STACK MIA BRK	Missing Data from 1/23/2018 4:24:02 PM to 1/23/2018 4:30:02 PM	0.1		Communication Error	MISSING ONE TEN SECOND READING
BATTERY 1	STACK MIA BRK	Missing Data from 1/25/2018 12:24:02 AM to 1/25/2018 12:30:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
BATTERY 1	STACK MIA BRK	Missing Data from 1/25/2018 4:24:02 PM to 1/25/2018 4:30:02 PM	0.1		Communication Error	DID NOT CALCULATE RAW READING
BATTERY 1	STACK MIA BRK	Missing Data from 1/26/2018 8:24:02 AM to 1/26/2018 8:30:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
BATTERY 1	STACK MIA BRK	Missing Data from 1/27/2018 8:24:02 AM to 1/27/2018 8:30:02 AM	0.1		Communication Error	Missing one ten second reading.
BATTERY 1	STACK MIA BRK	Missing Data from 1/29/2018 8:24:02 AM to 1/29/2018 8:30:02 AM	0.1		All Data Good	Did not calculate raw average. All data present
BATTERY 1	STACK MIA BRK	Missing Data from 1/3/2018 11:54:02 PM to 1/4/2018 12:06:02 AM	0.2		All Data Good	Did not calculate raw average. All data present

BATTERY 1	STACK MIA BRK	Missing Data from 1/3/2018 12:24:02 AM to 1/3/2018 12:30:02 AM	0.1		Communication Error	Missing 1 ten second reading. All other data present.
BATTERY 1	STACK MIA BRK	Missing Data from 1/3/2018 4:24:02 PM to 1/3/2018 4:30:02 PM	0.1		All Data Good	Did not calculate raw average. All data present
BATTERY 1	STACK MIA BRK	Missing Data from 1/30/2018 4:24:02 PM to 1/30/2018 4:30:02 PM	0.1		All Data Good	Did not calculate raw average. All data present.
BATTERY 1	STACK MIA BRK	Missing Data from 1/30/2018 8:24:02 AM to 1/30/2018 8:36:02 AM	0.2		All Data Good	Did not calculate raw average. All data present.
BATTERY 1	STACK MIA BRK	Missing Data from 1/31/2018 12:24:02 AM to 1/31/2018 12:30:02 AM	0.1		Communication Error	Missing 1 ten second reading. All other data present.
BATTERY 1	STACK MIA BRK	Missing Data from 1/31/2018 4:24:02 PM to 1/31/2018 4:30:02 PM	0.1		All Data Good	Did not calculate raw average. All data present.
BATTERY 1	STACK MIA BRK	Missing Data from 1/4/2018 12:24:02 AM to 1/4/2018 12:36:02 AM	0.2		All Data Good	Did not calculate raw average. All data present
BATTERY 1	STACK MIA BRK	Missing Data from 1/4/2018 4:24:02 PM to 1/4/2018 4:30:02 PM	0.1		All Data Good	Did not calculate raw average. All data present
BATTERY 1	STACK MIA BRK	Missing Data from 1/6/2018 4:24:02 PM to 1/6/2018 4:30:02 PM	0.1		Communication Error	Missing one ten second reading.
BATTERY 1	STACK MIA BRK	Missing Data from 1/6/2018 8:24:02 AM to 1/6/2018 8:30:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY 1	STACK MIA BRK	Missing Data from 1/7/2018 4:24:02 PM to 1/7/2018 4:30:02 PM	0.1		Communication Error	Missing one ten second reading.

BATTERY B	STACK MIA BRK	Missing Data from 1/14/2018 12:30:02 AM to 1/14/2018 12:36:02 AM	0.1		Communication Error	Missing 1 ten second reading. All other data present
BATTERY B	STACK MIA BRK	Missing Data from 1/14/2018 4:30:02 PM to 1/14/2018 4:36:02 PM	0.1		All Data Good	Did not calculate raw average. All data good
BATTERY B	STACK MIA BRK	Missing Data from 1/15/2018 8:30:02 AM to 1/15/2018 8:36:02 AM	0.1		Communication Error	missing 1 teb second reading. All other data is present
BATTERY B	STACK MIA BRK	Missing Data from 1/16/2018 4:30:02 PM to 1/16/2018 4:36:02 PM	0.1		Communication Error	Missing 1 ten second reading. All other data present
BATTERY B	STACK MIA BRK	Missing Data from 1/17/2018 4:30:02 PM to 1/17/2018 4:36:02 PM	0.1		Communication Error	Missing 1 ten second reading. All other data is present.
BATTERY B	STACK MIA BRK	Missing Data from 1/18/2018 4:30:02 PM to 1/18/2018 4:36:02 PM	0.1		Communication Error	missing 1 ten second reading. All other data points good.

BATTERY B	STACK MIA BRK	Missing Data from 1/19/2018 4:30:02 PM to 1/19/2018 4:36:02 PM	0.1		All Data Good	Did not calculate raw average. All data present
BATTERY B	STACK MIA BRK	Missing Data from 1/21/2018 8:06:02 PM to 1/21/2018 8:54:02 PM	0.8		Communication Error	Missing multiple ten second readings.
BATTERY B	STACK MIA BRK	Missing Data from 1/22/2018 4:30:02 PM to 1/22/2018 4:36:02 PM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 1/25/2018 4:30:02 PM to 1/25/2018 4:36:02 PM	0.1		Communication Error	DID NOT CALCULATE RAW READING
BATTERY B	STACK MIA BRK	Missing Data from 1/26/2018 8:30:02 AM to 1/26/2018 8:36:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
BATTERY B	STACK MIA BRK	Missing Data from 1/31/2018 12:30:02 AM to 1/31/2018 12:36:02 AM	0.1		Communication Error	Missing 1 ten second reading. All other data present.
BATTERY B	STACK MIA BRK	Missing Data from 1/4/2018 12:30:02 AM to 1/4/2018 12:36:02 AM	0.1		Communication Error	Missing 1 ten second reading. All other data present
BATTERY B	STACK MIA BRK	Missing Data from 1/7/2018 4:30:02 PM to 1/7/2018 4:36:02 PM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 1/9/2018 12:30:02 AM to 1/9/2018 12:36:02 AM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 2/10/2018 4:30:02 PM to 2/10/2018 4:36:02 PM	0.1		All Data Good	Did not calculate raw average. All data present
BATTERY B	STACK MIA BRK	Missing Data from 2/11/2018 4:30:02 PM to 2/11/2018 4:36:02 PM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY B	STACK MIA BRK	Missing Data from 2/13/2018 12:30:02 AM to 2/13/2018 12:36:02 AM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 2/13/2018 4:30:02 PM to 2/13/2018 4:36:02 PM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 2/16/2018 12:30:02 AM to 2/16/2018 12:36:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
BATTERY B	STACK MIA BRK	Missing Data from 2/16/2018 4:30:02 PM to 2/16/2018 4:36:02 PM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
BATTERY B	STACK MIA BRK	Missing Data from 2/17/2018 8:30:02 AM to 2/17/2018 8:36:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
BATTERY B	STACK MIA BRK	Missing Data from 2/18/2018 4:30:02 PM to 2/18/2018 4:36:02 PM	0.1		Communication Error	MISSING ONE TEN SECOND READING
BATTERY B	STACK MIA BRK	Missing Data from 2/19/2018 12:30:02 AM to 2/19/2018 12:36:02 AM	0.1		Communication Error	HAD ONE EXTRA TEN SECOND READING
BATTERY B	STACK MIA BRK	Missing Data from 2/19/2018 8:30:02 AM to 2/19/2018 8:36:02 AM	0.1		Communication Error	MISSING ONE TEN SECOND READING
BATTERY B	STACK MIA BRK	Missing Data from 2/2/2018 4:30:02 PM to 2/2/2018 4:36:02 PM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 2/2/2018 8:30:02 AM to 2/2/2018 8:36:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY B	STACK MIA BRK	Missing Data from 2/20/2018 12:30:02 AM to 2/20/2018 12:36:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY B	STACK MIA BRK	Missing Data from 2/20/2018 12:48:02 PM to 2/20/2018 1:24:02 PM	0.6		Quarterly Audit	Performed 1st quarter opacity filter audit with achd.

BATTERY B	STACK MIA BRK	Missing Data from 2/20/2018 8:30:02 AM to 2/20/2018 8:36:02 AM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 2/21/2018 4:30:02 PM to 2/21/2018 4:36:02 PM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 2/21/2018 8:30:02 AM to 2/21/2018 8:36:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY B	STACK MIA BRK	Missing Data from 2/22/2018 8:30:02 AM to 2/22/2018 8:36:02 AM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 2/24/2018 12:30:02 AM to 2/24/2018 12:36:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
BATTERY B	STACK MIA BRK	Missing Data from 2/24/2018 8:30:02 AM to 2/24/2018 8:36:02 AM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
BATTERY B	STACK MIA BRK	Missing Data from 2/27/2018 12:30:02 AM to 2/27/2018 12:36:02 AM	0.1		Communication Error	Missing one 10 second reading. All other data present.
BATTERY B	STACK MIA BRK	Missing Data from 2/28/2018 8:30:02 AM to 2/28/2018 8:36:02 AM	0.1		Communication Error	Missing 1 ten second reading. All other data present
BATTERY B	STACK MIA BRK	Missing Data from 2/3/2018 8:30:02 AM to 2/3/2018 8:36:02 AM	0.1		All Data Good	All data present, didnt calculate raw 6 min average.
BATTERY B	STACK MIA BRK	Missing Data from 2/4/2018 12:30:02 AM to 2/4/2018 12:36:02 AM	0.1		Communication Error	Missing one 10 second reading, didnt calculate raw 6 min average.
BATTERY B	STACK MIA BRK	Missing Data from 2/5/2018 4:30:02 PM to 2/5/2018 4:36:02 PM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY B	STACK MIA BRK	Missing Data from 2/5/2018 8:30:02 AM to 2/5/2018 8:36:02 AM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 2/8/2018 8:30:02 AM to 2/8/2018 8:36:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY B	STACK MIA BRK	Missing Data from 3/1/2018 5:42:02 PM to 3/1/2018 6:24:02 PM	0.7		Communication Error	I HISTORIAN SERVER LOCKED UP SNSTEMS REBOOTED SERVER
BATTERY B	STACK MIA BRK	Missing Data from 3/11/2018 12:30:02 AM to 3/11/2018 12:36:02 AM	0.1		All Data Good	Did not calculate raw average. All data present.
BATTERY B	STACK MIA BRK	Missing Data from 3/11/2018 9:30:02 AM to 3/11/2018 9:36:02 AM	0.1		Communication Error	missing 1 ten second reading
BATTERY B	STACK MIA BRK	Missing Data from 3/12/2018 4:30:02 PM to 3/12/2018 4:36:02 PM	0.1		Communication Error	Missing 1 ten second reading. All other data present
BATTERY B	STACK MIA BRK	Missing Data from 3/12/2018 8:30:02 AM to 3/12/2018 8:36:02 AM	0.1		All Data Good	Did not calculate raw average. All data present
BATTERY B	STACK MIA BRK	Missing Data from 3/13/2018 4:30:02 PM to 3/13/2018 4:36:02 PM	0.1		Communication Error	Missing 1 ten second reading. All other data present
BATTERY B	STACK MIA BRK	Missing Data from 3/15/2018 4:30:02 PM to 3/15/2018 4:36:02 PM	0.1		All Data Good	Did not calculate raw average. All data present
BATTERY B	STACK MIA BRK	Missing Data from 3/16/2018 8:30:02 AM to 3/16/2018 8:36:02 AM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 3/18/2018 8:30:02 AM to 3/18/2018 8:36:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY B	STACK MIA BRK	Missing Data from 3/2/2018 8:30:02 AM to 3/2/2018 8:36:02 AM	0.1		All Data Good	Did not calculate raw average. All data present.

BATTERY B	STACK MIA BRK	Missing Data from 3/20/2018 4:30:02 PM to 3/20/2018 4:36:02 PM	0.1		Communication Error	DID NOT CALCULATE RAW READING
BATTERY B	STACK MIA BRK	Missing Data from 3/21/2018 4:30:02 PM to 3/21/2018 4:36:02 PM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY B	STACK MIA BRK	Missing Data from 3/23/2018 4:30:02 PM to 3/23/2018 4:36:02 PM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 3/23/2018 8:30:02 AM to 3/23/2018 8:36:02 AM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY B	STACK MIA BRK	Missing Data from 3/27/2018 8:30:02 AM to 3/27/2018 8:36:02 AM	0.1		Communication Error	Missing 1 ten second reading. All other data present.
BATTERY B	STACK MIA BRK	Missing Data from 3/28/2018 8:30:02 AM to 3/28/2018 8:36:02 AM	0.1		Communication Error	missing 1 ten second reading. All other data is present
BATTERY B	STACK MIA BRK	Missing Data from 3/29/2018 8:30:02 AM to 3/29/2018 8:36:02 AM	0.1		Communication Error	DID NOT CALCULATE RAW READING
BATTERY B	STACK MIA BRK	Missing Data from 3/4/2018 4:30:02 PM to 3/4/2018 4:36:02 PM	0.1		Communication Error	All data present, did not calculate raw average data.
BATTERY B	STACK MIA BRK	Missing Data from 3/4/2018 8:30:02 AM to 3/4/2018 8:36:02 AM	0.1		Communication Error	Missing one ten second reading.
BATTERY B	STACK MIA BRK	Missing Data from 3/7/2018 4:30:02 PM to 3/7/2018 4:36:02 PM	0.1		Communication Error	Missing 1 ten second reading. All other data present
BATTERY B	STACK MIA BRK	Missing Data from 3/7/2018 6:12:02 PM to 3/7/2018 6:24:02 PM	0.2		Communication Error	I history program locked up. Program was reset.
BATTERY B	STACK MIA BRK	Missing Data from 3/8/2018 4:30:02 PM to 3/8/2018 4:36:02 PM	0.1		Communication Error	Missing one ten second reading.
